

Full House Greet Military Band at Mokena School Gym

One of the finest musical treats which it has ever been the privilege of the citizens of Mokena and surrounding territory to enjoy, was presented last Friday night in the Mokena school gym, when the 40 piece military band of the 732nd Military Police Battalion of Camp Desplantes under the leadership of Sgts. Roosevelt Wysinger and Geo. Perry put on a real thrill program. Both Sergeants have just recently returned from service in Guadalcanal.

From the first motion of the band director's baton to the last note, there was not a dull moment. The large gym packed to capacity, vibrated with the stirring and forceful band music ranging from military marches to overtures and Victor Herbert operatic selections. The musical offerings were superb and delighted everyone.

The band had orchestral sections who offered selections in a lighter vein, such as popular dance music and for good measure some very "hot" jitterbug numbers. Nor was this all. Such popular peace time night club headliners as Eddie Knox and Marvin Randolph famous trumpeters, Nip and Tuck top notch dance team, Chop and Sam another famous novelty dance team and Bunka Kelly head of the comedy committee added their talents to the two hour program to the delight of both young and old.

Nationally famous musicians from such bands as Cab Callaway, Fletcher Henderson, Duke Ellington Count Basie were combined with famous singers, dancers, comedians all in this now popular military band.

During the intermission numerous prizes, gifts from Mokena business men were brought on the stage and the names of the boys the prizes were to be sent to were read. Bill Jones of Manhattan, a former resident of the Mokena territory, stirred up a lot of interest by conducting a war bond drive Sheldon Hauck of the New Lenox Coal and Feed Co. being the buyer of \$350 worth of war bonds.

Among the distinguished guests present who made short talks were Howard Hoaglund of Elgin, Past 5th District VFW Commander, Kathryn Hoaglund, President of the Ladies VFW Auxiliary of the 5th District and Bernice Pease of the Elgin Hospital. She is the Department chairman of the Ladies Auxiliary VFW of the 5th District.

This thrilling show was sponsored by the Wm. Martin Post 725, and the Ladies Auxiliary of the VFW of Mokena and much credit is due to Commander Glenn Peterson of the local post and to Bill Jones of Manhattan for securing such high class talent. Mr. Jones announced that he would endeavor to be back with another good show within a month or two.

At the close of the program with the band playing "This is the Army Mr. Jones" as the final closing selection, the entire band was feted at a big dinner at the Hatch Hall prepared and served by the members of the Ladies Auxiliary of the local VFW post. The band members were also presented with a liberal supply of smokes.

Bill Jones has done a great deal of good work in Manhattan and Wilton. He promoted "The Smokes for Yanks" club at Manhattan and put over a big homecoming in Manhattan the past summer. He has also been vitally interested in another group "The Soldier's Friend" at Wilton Center.

CHAS. EGGERS AWARDED MAIL MESSENGER JOB AT MOKENA

The mail messenger at Mokena post office, which has been up for bids, has been awarded to Charles Eggers of Mokena for \$60 per month. Mr. Eggers will take up his new duties next week. There were only two bids, the other being John W. Martin.

Irwin Howes has been the mail messenger for the past two years.

MOKENA VILLAGE BOARD PASSES NEW FOOD SANITATION ORDINANCE

The Mokena Village Board at a special meeting Tuesday evening, passed a new ordinance dealing with the sanitary handling of all meat and food supplies and food services in Mokena. More details regarding this ordinance will be given next week.

MOKENA PASTEURIZED MILK ORDINANCE PRINTED IN THIS ISSUE

The new ordinance recently passed by the Mokena Village Board requiring that only pasteurized grade A milk be sold in the village is printed in full in this issue.

Henry Harnack, Frankfort Dies of Heart Attack

Henry Harnack, aged 77 years, practically a life long resident of Frankfort Twp., died Wednesday morning at 8:15 o'clock at his home in Frankfort of a heart attack. He has been in poor health for the past seven years.

He was born in Mecklenburg, Germany, February 24, 1866 and at the age of 6 years came with his parents to America and located near Frankfort and has lived there ever since.

In 1891 he was united in marriage with Miss Matilda Hansen.

Surviving are the widow, four daughters, Mrs. Emil Lenhardt, Mrs. Herbert Kohlhaugen, Mrs. Louis Steinhagen and Miss Lolo Harnack, all of Frankfort; two sons, Henry, Jr., of Frankfort and Milton of New Lenox; six grand children, two brothers, Fred and John.

Funeral services will be held Saturday afternoon at 1:30 o'clock at the home and at St. Peter's Evan., and Ref. church at two o'clock. Rev. Eric Bizer will officiate. Burial will be in Pleasant Hill cemetery.

Mr. and Mrs. Harnack celebrated their golden wedding anniversary two years ago.

TO BLOW FIRE SIREN AT NOON AT FRANKFORT

For sometime the fire siren at Frankfort has not been blown at noon as was formerly done, but Fire Chief Henry Lühring announces that arrangements have been made to have the fire siren blow at noon each day beginning next Monday noon.

FRANKFORT LIONS CLUB SPONSORS ANOTHER MOVIE

The Frankfort Lions Club will sponsor another one of their popular monthly movies at the Frankfort school gym on the evening of December 10th. No admission is charged, but a free will offering is taken. Watch for more details next week.

MOKENA CIVIC ASSOC. APPOINT XMAS COMMITTEE

At the meeting of the Mokena Civic Association last Tuesday a committee with Walter Olson as chairman was delegated to see what can be done by way of a Christmas celebration.

THANKSGIVING PARTY AT LINCOLN ESTATES GREAT SUCCESS

The big Thanksgiving party given by the Keane Avenue Lincoln Estates Community Club at Pete's Place last Saturday night, was very largely attended, the crowd taxing the capacity of the place. Every one enjoyed a fine time and the affair was run without a hitch. The war bond was won by Mrs. Ora Andrews and she turned it back to the fund for which the affair was given, this being a fund for the building of a much needed local community house or community center. The Community Club hopes to raise enough money to build a community house sometime in the future.

ORLAND PARK FIRE DEPT. DANCE THIS SATURDAY NITE

Saturday night of this week the Orland Park Vol. Fire Department will hold a dance at the Goodings Grove dance hall. Music by Lea's Melody Boys. Every one invited.

YOUTH FELLOWSHIP TO SERVE CORN FRITTER SUPPER

Members of the Youth Fellowship will serve a Corn Fritter supper in the Frankfort Methodist church Friday, Dec. 10 from 6 to 7:30 pm.

John G. Bettenhausen who was hurt on Oct. 22 is still a patient at St. Francis hospital, Blue Island.

Mrs. Elmer Shirrell, wife of the Relocation Supervisor for War Relocation Authority, spoke to the Women's Guild of St. John's Ev. church, Mokena at the regular meeting Nov. 18.

She spoke on Relocation of American Japanese, telling the history of the Japanese on our West Coast, the story of their evacuation to relocation camps, life in the camps and the work now being done to help these citizens to find places in the middle west where they can enjoy the rights of their citizenship.

Mrs. Shirrell lived in a relocation camp and taught in the high school there for 8 months before coming to Chicago last January.

These Wacs are proud of their new stripes. There are always opportunities for promotion if you qualify.

Gov. Dwight Green Lauds War Effort of Illinois Citizens

OFFICE OF THE GOVERNOR
Nov. 18, 1943

Mr. Wm. Semmler, Mokena News-Bulletin Mokena, Ill.

Dear Mr. Semmler:

As we approach the second anniversary of Pearl Harbor, I have been given the opportunity of seeing Illinois war activities at first hand. For this purpose, I have been making a tour which is taking me into every section of the State. Everywhere I have gone thus far, I have found people eager to do everything asked of them to hasten victory, and I also know that the remainder of my trip will testify to the unity of every element in Illinois.

This willingness by our people to put forth still greater effort is especially heartening when we consider that Illinois' war record already is one of the most impressive in the nation. As you know, our State has scored a number of "firsts" in salvage, Victory Gardens, war bond sales, women's activities, plant protection and civil protection, and agricultural and industrial production.

This record never could have been made without the most patriotic co-operation by those who direct the channels of public information in Illinois. The record has been made because the newspapers and radio stations of this State have kept the people of Illinois fully informed of what needed to be done and of how to do it.

As we prepare to rededicate ourselves to Victory on December 7, I feel impelled to say to you, as Governor and as Chairman of the Illinois War Council, that the press and radio of Illinois have been the Yours sincerely,
Dwight H. Green,
Governor.

FRANKFORT MEN'S CLUB HOLDS FATHER AND SON BANQUET

The annual Father and Son Banquet sponsored by the Men's club of the Frankfort Methodist church was held there Friday evening. A turkey dinner was served to about a hundred men and boys.

F. J. Kohlhaugen was the toastmaster. Rev. Rudolf Malek, pastor of the church, introduced the speaker of the evening the Rev. Dr. Hugh Morgan, pastor of the Ottawa St. Methodist church at Joliet. His subject was "What Is Your Purpose in Life?", based on the story of Titus in the New Testament.

Music was provided by an instrumental quartette comprised of Roger and Alan Hedges, Henry Heisner and Dick Lambrecht. Roger Hedges presented a piano solo and played the accompaniment for the group singing led by Reb. Malek.

Brief talks were given by Wm. C. Bettenhausen who represented the fathers, and by Clair Warning who spoke to the sons. Geo. Andrews, 81, was the oldest father and Chas. Mark Jr. 4, was the youngest son present. The dinner was served by the Women's Society of Christian Service and the dining room was decorated in brown and yellow with table centerpieces of bitter sweet.

REVENUE DEPT. OFFERS TO AID FARMERS MAKING OUT INCOME TAX

John Lühring, cashier of the Frankfort State Bank announces that a representative of the revenue department will be at the Frankfort State Bank all day December 4th for the purpose of aiding farmers in making out their federal income tax returns due December 15th. The service will be gratis.

Citizens Must Declare All Foreign Holdings

Citizen of Mokena who own any property in foreign countries were notified by Postmaster Mrs. Margaret O'Brien that they must file reports of their foreign holdings with the Treasury Department before Dec. 1. The notice was given by means of a poster placed on display in the post offices.

Postmaster Mrs. Margaret O'Brien points out that it is necessary for the government to have as complete information as possible on the American stake abroad to assist the military authorities and the civilian governments on the fighting fronts and to bring about sound solutions of the post war problems.

Report forms, known as TFR-500 may be obtained thru commercial banks, or from the nearest Federal Reserve Bank, the postmaster states. Penalties are provided for those who willfully fail to file reports.

WOMEN'S GUILD ST. PETER'S EV. CHURCH FRANKFORT HOLDS NOV. MEETING

The November meeting of the Women's Guild of St. Peter's Ev. church, Frankfort was held in the church parlors Thursday afternoon with Mrs. Fred Heisner presiding. Mrs. Geo. Sangmeister read an article entitled, "I Am your Home". Mrs. Joe Scott's topic was "Where Others are Concerned." A group of members took part in the reading of which was followed by comments by the pastor Rev. E. G. Bizer. He also gave a summary of the third chapter of a book on missions, Temples Still Undone. Election of officers took place during the business meeting with the following results: Mrs. Glenn Folkers, pres., and Mrs. Wallace Weichbrodt, treasurer. Mrs. Elmer Batson and Mrs. Geo. Sangmeister, vice pres. and secretary respectively will retain their offices for another year. A brief memorial service was held in respect for Mrs. Helen Tewes, deceased member.

The guild decided to meet next on Dec. 9 at which time boxes of eq [illegible] pus [illegible] [illegible] packed for the Bensonville institutions. It was also voted to donate \$5.00 to the yarn fund for service-men's sweaters. At this meeting a pot luck luncheon will be held at noon, followed by a business session, social hour and gift exchange.

More than two hundred people attended the baked ham dinner served later in the afternoon and followed by a program starting at 7:30 o'clock. Sally Larson played the piano accompaniment for a vocal trio composed of Juanita Waldvogel, Geo. Sangmeister and Scherill Weichbrodt. There were songs by Kenneth Engelmann, Yvonne Koerner and a duet by Janet Folkers and Larry Engelmann; recitations by Janice Johnson, Carol and Freddie Weichschelberger; accordion solo, Udell Gay; piano solo by Phyllis Trieme; a "Kazoo" sextet by first grade boys and a song by the Primary room of the Frankfort school. "Let Mary Do It" was the title of a comedy presented by a group of Guild members assisted by the Schram twins. It was well received by an appreciative audience. Mrs. E. Engelman and Mrs. Walter Pfaff were in charge of the program and Mrs. Wm. Wischover was chairman for the dinner.

TINLEY PARK LEFT HANDED SOCIAL CLUB ACTIVITIES

Left Handed Social Club Notice Nov. 29, Farewell party for Okinah (Kaney) Asher. 8:30 pm. Refreshments.

Tinley Police Chief Married 25 Years To Hold Open House

To Organize Basketball Team At Frankfort

All boys in Frankfort of high school age and over are invited to the school gym Wednesday evening Dec. 1 at 8:30 p.m. for the purpose of organizing basketball groups. Rev. Erich G. Bizer and Herbert Kohlhaugen will serve as coaches.

BAKED HAM DINNER TO BE SERVED AT ST. JOHN'S EV. CHURCH MOKENA

A Baked Ham dinner with all the trimmings will be served at the St. John's church, Mokena on Dec. 1. Serving will start at 5:00 pm. and on. A Christmas sale will also be held.

FRANKFORT COMPLETES SUCCESSFUL COMMUNITY CHEST DRIVE

Mr. Ray Warning was chairman of the Community Chest War Fund drive just completed in Frankfort. He was ably assisted by: Mr. Ed. Vollrath and Mrs. Fred Weischelberger.

Workers were: Mesdames, Clark Bennett, Geo. Waldvogel, J. C. Knight, Geo. Sangmeister, Adam Heisner, Walter Carlson, Clarence Warning, Conrad Oetter, Ed. Warning, Stanley Johnson, Glenn Folkers, Leroy Mager and Arthur Lambrecht.

Sale Date

Fred Ingraham, Auctioneer

Nov. 30—Household goods sale at Emiley Hall, New Lenox.

MORE BOYS CALLED INTO SERVICE OF THE COUNTRY

The following named men, registrants of Cook County, Local Board 10 were accepted for service Nov. 12:

Elkanah Asher, Tinley Park, Thos. Motherwell, Palos Park. Ambrose Morgenthaler of Palos Park was accepted for special service in the Navy on Oct. 29, 1943.

TO HOLD BAKE SALE

The Sacred Heart League of St. Mary's church Mokena, will hold a bake sale Saturday, Nov. 27 from 2 to 4. Place: Mrs. Moores. Orders may be placed with Mrs. J. N. Bradley phone 3201 Saturday morning.

AN UNAPPRECIATED TRUTH

Our government will go bankrupt if highly productive private industry capable of paying heavy taxes is not encouraged and maintained in these days of hundred-billion-dollar war budgets. A majority of people have no conception of the truth of this assertion. A single industry, the railroads, are at the present time paying more in taxes than the total cost of the Federal Government a few short years ago.

Railway taxes for the first eight months of 1943 totaled approximately \$1,296,362,000 or an average of \$5,353,000 a day. This is at the rate of \$2,044,000,000 a year. Statistical experts are of the opinion that rail taxes for the calendar year 1943 will be in the neighborhood of possibly a little more than \$2,000,000,000. It is estimated that 21 or 22 percent of total railroad revenues in 1943 will go to pay taxes.

It is not an accident that the railroads are able to pay such astronomical sums. Neither is it just a matter of writing a law and sending the tax collector around. Back of the railroads' \$2,000,000,000 tax bill is an epoch of transportation development.

The railroads were laid down to make commerce move. To do that, rail managements had to achieve efficient, reasonably-priced service. As traffic demands increased, they had to be prepared to extend this service. In boom or depression rail transportation continued unfaltering. Billions of dollars of private savings were poured into the expanding plant. The lessons of experience became the yardstick of operating efficiency. Railroad men had but one objective—good railroads.

These are a few of the reasons why the government is able to collect \$2,000,000,000 in taxes from a railroad industry. The same story could be told of other heavily-taxed industries that were originated and developed through the ingenuity and courage of free American citizens.

Police Chief C. A. Steinhagen of Tinley Park and his wife Matilda have enjoyed wedded bliss for the past twenty-five years and will honor this important event in their lives this coming Saturday night by a grand open house and silver wedding anniversary, at the Saenger hall to which they are inviting all their friends.

Hogar's six piece orchestra has been engaged to furnish the music for the old time dances as well as any new steps the celebrants may wish to dance. And this is not all, for there will be an abundance of eats and refreshments and everyone is invited to come early and stay late and enjoy an evening of good fellowship with the genial police chief and his gracious wife.

Chief Steinhagen has been Tinley Park's one man police force for quite a number of years and previous to this he was engaged in the garage business in Tinley Park.

He was born in Orland township and comes of a well known pioneer family of that community.

The chief and the editor were school mates in St. John's school in Mokena in 1903 when Rev. C. Schaub was the instructor.

Peter Feeds A Young Army

Supt. Peter McCarthy of the Morning Star Mission at Joliet has made the following outstanding report of the activities of the Mission during the 34 years just closed this month:

Conversions 409; free meals served to 6,489 persons; free beds to 2,405; free clothing to 648; relief to 113 families; police court and jail visits 323; paid bus and railroad fares for 172 persons.

TINLEY GIRL WORKING FOR SERVICE MEN

We point with pride to Dorothy Stockm'n who is working with tireless effort for our service men. At an assembly on Monday she was awarded a pin of appreciation by a representative of the Bundles for America. Dorothy has knitted and woven many afghans, made a dozen scrapbooks for service men in hospitals, and interested many people outside the school in filling Christmas stockings. Much praise is due her for her sticktoitiveness, patriot interest, and excellent workmanship.

—W. F. FIERKE, Supt.
Tinley Park Public School.

MARLEY NEWS TEMS

Miss Mae Helmke of Chicago, and T-5 Raymond Helmke, spent last week with their parents Mr. and Mrs. Fred Helmke. Friday a family Thanksgiving dinner and birthday party in honor of Raymond was enjoyed in the Helmke home.

Mrs. Leonard Bertelson was a dinner guest Sunday evening of Mr. and Mrs. Chris Bertelson.

Mr. and Mrs. Egbert Gillette and Mr. and Mrs. Russel Lauffer and family, were entertained at dinner Sunday in the Edw. Sprout home.

Mr. and Mrs. Jack Corp and son LeRoy of Plainfield, spent Friday evening with Mr. and Mrs. Alfred Sprout.

Mr. and Mrs. Frank Specker have received word that their son Harold has arrived in England.

Mr. and Mrs. Harwood Stellwagen spent Sunday in the John Handorf home.

Mr. and Mrs. Chas. Dale, Mrs. Wm Morrison, Miss Blanche Dale, and Miss Doris Knapp spent Sunday with A. S. Elwood Dale at the Great Lakes Naval Training Sta.

Mrs. Frances Hull left Saturday for Baltimore, Md. after spending last week here with her parents Mr. and Mrs. James Frazer.

Miss Evelyn Cutler is enjoying a vacation from her duties at the Texas Co. in Lockport.

Mr. John Brock fell at his farm last week and broke a bone in his wrist.

Mr. and Mrs. Walter Haas and family have moved into their farm home where Mr. and Mrs. Chas. Haas resided, and Mr. and Mrs. C. Haas have moved into the Marley home vacated by the Walter Haas'.

Mrs. Tom Cooper, Mr. and Mrs. Darwin Cooper and family of New Lenox, Mrs. Fred Trask and daughter Helen of Lockport, Mrs. Francis Nelson, and Miss Gladys Nelson were guests Sunday afternoon of Mr. and Mrs. James Frazer.

Mr. and Mrs. Harry Peterson of Joliet and Mr. and Mrs. Hal Fidler of Chicago Heights were recent guests of Mr. and Mrs. Stanley Coe.

Mrs. Minnie Blodgett entertained at a family dinner in her home Sunday in honor of the birthday of Mrs. Leonard Huisig.

Washington, D. C.

GOOD WORD ON EGGS

If you like eggs—fried, scrambled, or Easter—this may interest you.

The high price of eggs will soon come tumbling down. This Humpty-Dumpty event will be brought about by the sale of five million cases of government eggs.

War Food administration, responding to the prodding of critics, admits that it was putting too many eggs in one basket, for military and lend-lease requirements, at the expense of civilian requirements.

Release of this tremendous quantity of eggs won't alarm the housewife, but worries War Food experts because it might discourage production for next year.

Meantime, War Food and OPA are rowing over the price to be paid for these five million cases of cold storage eggs. WFA officials, protecting the producers, want a higher price for cold storage eggs than fresh eggs.

OPA, thinking of the housewife, says: "This is the first time we ever heard that eggs become more valuable as they get older!"

But War Food stands firm on the principle that the old eggs should bring more money. Their reason is that the old eggs were stored by dealers who were playing the usual seasonal game of holding for a rise in price, without realizing that the government was going to step in and take over at the fixed price.

In other words, War Food experts are trying to hand dealers some of the speculative profit they might have gotten, while OPA—trying to protect the consumer—wants to hold the price down.

The inside government egg debate is still raging.

COLD WINTER AHEAD

Whatever you burn this winter—oil or coal—it is still going to be cold.

The public has the impression that it is only coal which is short now. Actually, oil is even shorter, rations for this winter being based on a 34 per cent cut below pre-war consumption.

The fuel situation is so bad that OPA experts several months ago recommended coupon rationing of coal. A warm debate followed between OPA and the Solid Fuel Coordinator, in which Ickes, supported by the coal industry, opposed rationing.

But OPA experts believed coal would be short this winter and, during the summer, laid plans for coupon rationing. In August, they were all ready to go to press with millions of coupon books.

Finally, however, the coal coordinator vetoed the plan. Now it is too late to impose coupon rationing—partly because there is not sufficient time to print the coupons and give out instructions to local boards; also because some coal is already supposed to be distributed—inequitably—to consumers.

Thus we shall have to rely on "dealer rationing." This does not limit consumption—only strings out the supply in dribbles, making a greater delivery task without decreasing consumption.

The public believes that oil is bountiful compared with coal, and OPA is now besieged with applications for reconversion from coal to oil. These applications are being resisted, since the impression of abundance of oil is merely an illusion.

FEWER TIRES FOR ALLIES

One thing not discussed at the Moscow conference was rubber tires. If the question had been raised, Russia would have been told that tires on Lend-Lease will have to be reduced sharply.

Reason is that U. S. trucks and buses are wearing their tires down to the fabric, and Jesse Jones' long ballyhooed synthetic tires are falling behind schedule. There is plenty of new rubber, but a dire lag in tire production.

Meanwhile, bus and truck transportation has never been more vital. Last year inter-city buses carried more passengers than the railroads (680 million compared with 669 million), though they travelled fewer miles.

If they are crippled, the weight would be thrown back on the already struggling railroads. Also, many places would be without transportation, since 54,000 communities have no rail service.

The army, OPA, ODT and the rubber director's office are putting their heads together to find a way out. One solution will be a reduction of tires shipped on Lend-Lease. Russia alone was promised 500,000 this year, in addition to 2,000,000 already delivered.

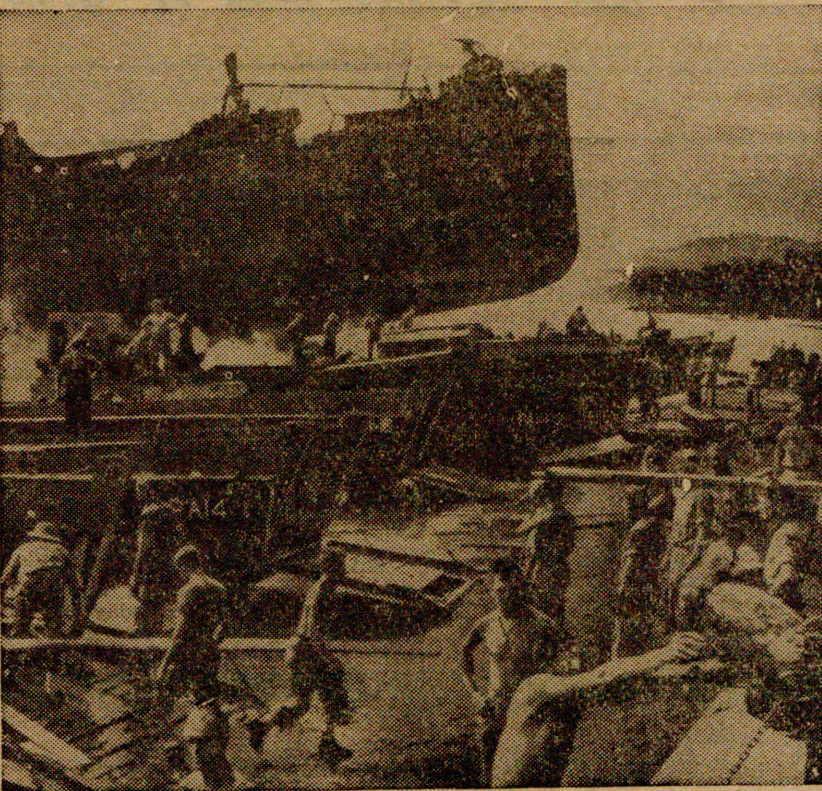

MERRY-GO-ROUND

Washington is plagued with an excess of traffic lights. One, near the senate wing of the capitol, is green all the time, thus serving no purpose except to confuse the public.

Gen. "Wild Bill" Donovan drives a midget "Standard" car, made in England. It sells for \$800 new, but the general bought it for \$1,000 second hand.

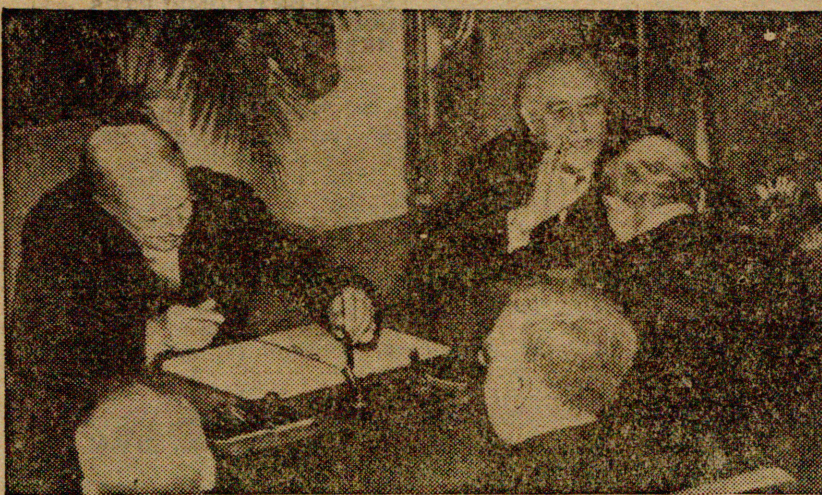

State department learns that one of the most distressing shortages in France is in ordinary household needles.

Yanks Press Back Counter-Attacking Japs

Japanese landings in the South Pacific, probably for the purpose of regaining the offensive, were foiled by United States forces. This sound-photo shows U. S. coastguardsmen and marines unloading supplies near a Jap warship, the Kinugawa Maru, which was beached after a battle. Admiral Nimitz warned the enemy of new offensives.

United Nations Launch U. N. R. R. A.

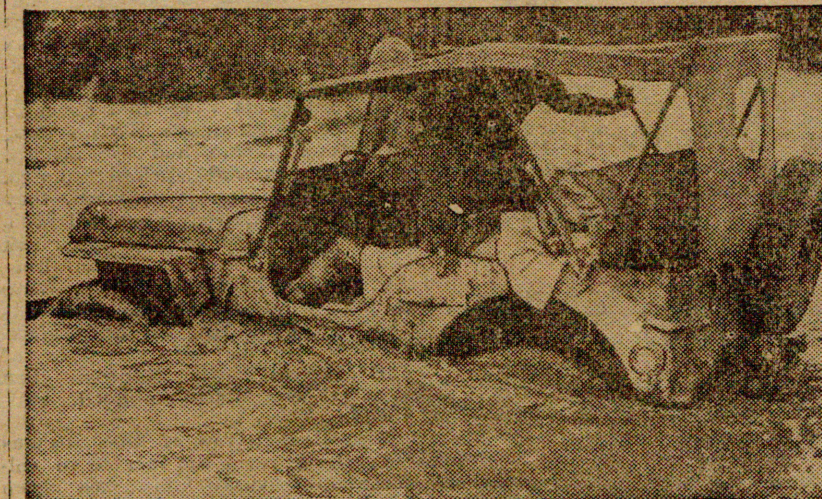

An international agency of 33 United Nations and 11 associated powers to relieve suffering in liberated countries was launched at the White House. President Roosevelt speaks with British Ambassador Lord Halifax as Leighton McCarthy, Canadian minister, signs for his country. The new agency was named the United Nations Relief and Rehabilitation administration.

Early Blizzards Kill 7; Delay Trains

Early blizzards which swept the central west brought about the deaths of seven persons, five of them in Minnesota, where 11 inches of snow was reported in some localities. Track laborers are shown struggling to keep switches open in the Minneapolis railroad yards. Transportation and communication systems were stricken and most trains ran late.

German Sabotage Fails to Halt Allies

German troops destroyed a bridge near Caserta, Italy, to halt the advancing Allies. Their failure is illustrated by these British soldiers who run their jeep into the river and cross without the bridge. In an effort to protect their winter line, the Germans launched a series of furious counter attacks against most portions of the Allied Fifth army.

He's Hunting Planes

This camouflaged soldier appears to be hunting wild boar. Actually he is trying to spot an "enemy" plane during maneuvers in Tennessee. His uniform closely matches the hides of the spotted pigs.

Miss Coolidge a WAVE

Miss Betty Coolidge, a fourth cousin of former President Calvin Coolidge, who was sworn into the WAVES. She is a former model and will don a uniform at Hunter college, where she will receive her basic training.

Coal Flies Plane

Gasoline made from coal was used in an airplane for the first time in the U. S. recently. It carried the plane from Morgantown, W. Va., to Washington, D. C. Senator Joseph O'Mahoney, Wyoming, receives a can of the gasoline from Representative Jennings Randolph.

Junior Jeep

A junior jeep, driven by Mary Adams of Chicago, Ill., clatters along a downtown street. The jeep is homemade and has a tiny motor.

TRUTHFULNESS AT ALL TIMES

LESSON TEXT—Exodus 20:16; 23:1, 7; Matthew 5:33-37; John 8:42-45.

GOLDEN TEXT—Wherefore putting away lying speak every man truth with his neighbor: for we are members one of another.—Ephesians 4:25.

God hates all kinds of dishonesty—a fact which is emphasized by the additional commandment regarding truthfulness which is before us in this lesson.

God is truth, that is, the very essence of His nature is truth. In Him is no darkness at all (1 John 1:5). Lying or false witness therefore reveals a character opposite to God. Hence we are not surprised to find in our lesson that Satan is a liar and the father of lies, and that liars are his children.

I. The Nature of a Lie (Exod. 20:16; 23:1, 7).

The commandment against false witness brings before us one form of lying—for it has to do with perjury, that is, the telling of an untruth in court.

This is one of the worst forms of lying, because it may result in the one against whom it is practiced losing his liberty, his life or his property. It may mean the destruction of his good reputation.

It is obvious, however, that the commandment covers all forms of lying, whether in business, in social contacts, in the home, or in the church. We might do well to consider what the Bible has to say about whisperers, talebearers, backbiters, and others (see Lev. 19:6; II Cor. 12:20). A man's reputation may be as easily ruined by a whispered lie over the back fence or the luncheon table as by formal perjury in the courtroom. "Thou shalt not bear false witness" at any time, anywhere, or in any way.

II. The Practice of Lying (Matt. 5:33-37).

The people of our Lord's day (and who can say that the custom has stopped) were in the habit of telling lies and then trying to make others believe them by an oath.

They would swear by heaven, or the throne of God, or some other sacred thing, and thus try to enforce their false word by some great authority.

The liar is always under necessity of doing something—perhaps telling another lie—to cover his falsehood. When his comfort or advantage seems to be endangered because he is not believed, he brings an oath to bear upon his statement.

Jesus taught the great virtue of simple living and simple speech. A plain "yes" or "no" is usually sufficient for the situation. Qualifying words are apt to lead us astray. The life of a Christian should be so true and above board that no oath should be needed to assure one of his sincerity and honesty.

Since not all are Christians, it is a necessity that men be placed under some kind of oath or affirmation in judicial matters. Hence we need not interpret this Scripture as forbidding an oath in court.

It may be well to say a word about swearing in general. It is all too common among men, women and children. No Christian should ever be guilty of it, or that which sounds like it. We need admonition and correction at that point.

III. The Source of All Lies (John 8:42-45).

The devil is a liar, and the father of lies. Liars are members of his family. Jesus said it, "Ye are of your father the devil."

Liars had better consider their "family tree" and see how they like their spiritual father. He is lustful, murderous, and there is no truth in him (v. 44). If you belong to that family would you not like to change families and be born again into God's family?

Sadly enough the constant lying of the world seems to have infected the minds and hearts of Christians. Instead of being cleansed from this worldly defilement they carry its awful tendencies into the church. Is it not too true that gossip (which is almost always lying), false witness, the tearing down of someone's good name, is all too common in the church?

The great lie within the church, and one of Satan's prize exhibits, is the falsehood of modern religious liberalism (so-called) which is essentially a denial of real New Testament Christianity. Jesus said (v. 42) that if God is our Father we will accept Him as the Christ. The one who speaks sweet words about the example, the manhood, the leadership of the Master and who denies Him His place as God is clearly in mind here as a follower of the father of lies.

Note that in verses 45-47 Jesus challenges His enemies to convict Him of sin or of falsehood. No one has ever been able to meet that challenge.

The claims he made for Himself as the Son of God and the Saviour of the world are plain and unmistakable. If we deny them we either make Jesus a liar, or we make ourselves liars, and it is obvious that the latter is the case.

CLASSIFIED
DEPARTMENT

HELP WANTED

HELP WANTED—MIDDLE AGED couple with all-around farm experience to operate small modern chicken and dairy farm. Pleasant living quarters, year around job, will pay higher wages for good help. Write to CURT TEICH FARM - ANTIOCH, ILL.

Aid From Switzerland

For months, Switzerland has been sending materials needed in the war effort to the United States in exchange for food, all of these exports and imports being transported on vessels of Swiss registry through the port of Genoa, says Collier's. Axis countries have not been able to stop the practice because of Switzerland's threat to blow up her three tunnels, whose rail facilities are the life lines between Germany and Italy.

COLDS' COUGHING

In grandma's day was often treated with medicated mutton suet to relieve colds' coughing and muscle aches. Now mothers just rub on Penetro. Modern medication in a base containing old fashioned mutton suet. Penetro works 2 ways (1) Vaporizes (2) Stimulates circulation where rubbed on. Stainless. Get Penetro.

'Focus Cats'

The Focus Cats are pilots who carry no guns and whose specialty is photo reconnaissance in the European theater of operations.

Acid Indigestion

Relieved in 5 minutes or double money back. When excess stomach acid causes painful acid indigestion, gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for symptomatic relief—medicines like those in Bell's and Tablets. No laxative. Bell's brings comfort in 5 minutes or double your money back on return of bottle to us. 25c at all druggists.

When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood. You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with burning and burning is another sign that something is wrong with the kidneys or bladder. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

BLACK SOMBREIRO

by CLIFFORD KNIGHT

Elsa Chatfield, Hollywood artist, is cut off from the will of her Aunt Kitty, who died from an overdose of morphine. Barry Madison, an amateur detective, and Hunt Rogers, professional sleuth, go to Mazatlan, Mexico, on a cruise with Margaret and Dwight Nichols. On arriving they find that Elsa and her party have preceded them by plane. Sam Chatfield, Elsa's father, who is a rancher, puts on a big fiesta for the ranch workers. While the fiesta is in progress he asks Rogers to conduct an investigation among his guests concerning the death of his sister. Everyone present seems to have a motive. After the cross questioning the guests repair to the courtyard to watch the dancing.

CHAPTER IX

Elsa suddenly was vibrant with excitement. She directed my attention to the platform. "Look, Barry; listen!" she exclaimed.

Two youthful figures were mounting the stage, followed by a third, a larger more mature figure. The first two were our pair of wandering musicians, Pancho and Felipe, with battered guitar and ukulele. The third man carried a small harp-like instrument.

They began to play before they had turned to face the audience; and Felipe, the older, lifted his soft tenor voice in the Spanish words of a song: "Let us unite our hearts, Charro and China dancing!"

There was a China Poblana lurking in the shadows ready to step onto the platform; a short nervous Charro stood behind her. Of a sudden Elsa left me. At the edge of the crowd I saw Reed Barton move swiftly toward the platform, and before I realized what was happening, the two were standing before us under the bright light, and the musicians were backing off to the side still playing, enticingly, seductively. I'm sure it was one of those spontaneous, impulsive acts to which Elsa was so prone. I was reminded of that February evening now weeks in the past and far away in California at the beach club, when Reed Barton had appeared and claimed Elsa for their first dance together. And now they stood before us—Elsa in the costume said to have been named for a Chinese woman who brought it to the town of Puebla many years ago, and which is to be seen on festive occasions throughout Mexico; Reed Barton in the costume of the cowboy.

"Senor! Valgame Dios! Senor!" "Aqui, Maria," commanded Sam Chatfield from his place a few seats beyond us. "Que desees tu?"

"Oh, senor!" cried the woman breathlessly, her words smothered somewhat by the applause. "Valgame Dios! El caballero esta muerto!"

Rogers' strong hand fell upon my leg and his fingers gripped it powerfully. "Did you hear what she said?" he asked, getting to his feet. "Yes, I heard, Chesebro's dead."

A little group of frightened women servants was outside the entrance to Chesebro's room. Sam Chatfield drove them away, admonishing them to go back to the kitchen, then threw open the door, and stood back for Rogers and me to enter.

James Chesebro lay as if a great and welcome peace had descended upon him. His fat body made a huge mound under the light covering.

"The heart failed to rally, I suppose. The attack must have been more severe than Doctor Cruz thought."

"Do you think so, Mr. Madison?" "I don't know, of course, Mr. Chatfield, but—"

I was halted in mid-sentence by Rogers' action. He stooped, grasped the edge of the bed covers and stripped them back.

"His heart failed for quite a different reason, Barry," he said grimly, pointing to a widening stain of blood over the front of the pajamas. There was a small hole through the cloth over the heart, and when the cloth itself was pulled aside there was disclosed a small hole in the skin which still oozed blood.

"With your permission, Mr. Chatfield," Hunt said slowly, "I should like to have Dwight and Margaret stay, and George Rumble, and Reed Barton too. The police, of course," he looked closely at Sam Chatfield, "will investigate."

"I am required to send for the juez local and the medico legista." There was a suggestion of stiffness in his words, as if Rogers had anticipated his next move and he resented it. "The body must not be touched until one or both of them have examined it. Doctor Cruz happens to be the medico legista at Mazatlan. The police of course, will come."

The door closed behind Chatfield's short figure, and instantly Rogers became active. He glanced at his watch. It was nine-thirty. "I want your help, Barry," he said. "The capacity of the Mexican police is an unknown quantity to me. It may be excellent. I've had no experience with it. We should have half an hour before they arrive. If we're to solve the murder of Kitty Chatfield, it may be necessary to know just what's happened here in Mazatlan."

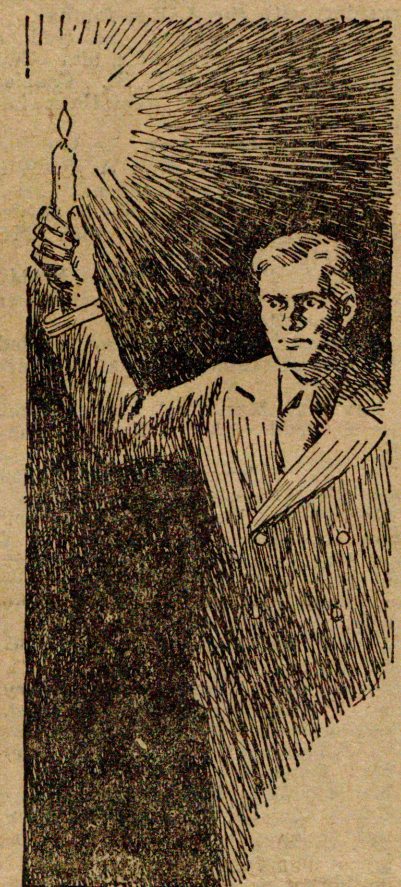

He glanced about the shadowy room, neglectful now of the body that lay in its huge mound on the bed. "The cause of death is obvious," he remarked, as if in answer to my thoughts. "A small,

thin blade of some sort stopped our friend's weakened heart."

He looked at the little tile table beside the bed, where Chesebro's watch lay and a glass of water stood. He walked over to a huge clothespress that reached toward the shadowy ceiling. "Would you mind holding the candle for me, Barry?" he requested.

I took it and he opened the door to the clothespress. "I am looking for Chesebro's clothing. Here it is." He brought out the suit of clothes Chesebro had worn that morning, and ran his hand swiftly into the various pockets. "There's hardly a chance that it's robbery," he remarked. "Gold pencil," he enumerated the various objects as he came across them. "Loose change in the trousers pocket. A billfold, obviously containing money. Letters and papers. That's all." He put the suit back into the clothespress again and shut the door. "Robbery is not the motive," he said.

"Not robbery," said Rogers as we finished our round, "and entrance could have been had only by

"Maybe the murderer is hiding there."

means of the door." He stood a moment uncertainly. "A dozen murderers could be lurking in the shadows of this enormous room. Let's make sure they are not doing so now."

Rogers led the way to the farther end of the room. Massive furniture, dark with age, of a period reminiscent of Maximilian, blocked our pathway.

"There's nothing back this way," said Rogers, holding high the candle and throwing its feeble beams about the end of the room. "Let's go back to the other end. Maybe the murderer is hiding there." He led the way, holding the candle high above the level of his eyes. His foot kicked something as we walked, and it shot like a dark and ominous shadow before us and fell to the floor.

"What is it?" I asked, feeling that my voice shook slightly.

"Something soft, and light," he said, advancing again. A few steps farther on he halted, stooped and picked up the object. "A sombrero," he said.

Rogers held the large sombrero in his hand as if to examine it in the light of the candle.

I took it from his hands and walked over to the light near the bed. It was a black felt sombrero, comparatively new, for it showed almost no signs of wear; across the front of the crown was an ornamental pattern in hand-wrought silver.

"George Rumble's sombrero, isn't it?" asked Rogers over my shoulder.

"He has one like this," I replied. "It was on the rack near the front door earlier this evening. How would it get in here, though?"

"Perhaps George can tell us," he took the sombrero from me and dropped it on the foot of the bed, where it remained a dark and sinister shadow, and turned to the bedside as if to check again some point about the murder victim which had occurred to him. A light tap came at the door, and Rogers halted abruptly.

"Come," he called. The door was pushed resolutely open.

Vague figures in the dim light crowded the doorway. Sam Chatfield entered, followed by Doctor Cruz, and behind him two men in uniform. They advanced into the room and the door closed behind them.

Doctor Cruz nodded to us, and went at once to the figure on the bed. Sam Chatfield presented the other two men. "Senor Otilio Lombardo, jefe del policia," he said, "and Senor Alvarez of the policia." Senor Madison and Senor Rogers. They bowed to us, but their interest was centered on the bed

where Doctor Cruz already was examining the dead man. They pushed on to join him and stood respectfully back until at last the doctor looked up and gave in Spanish his opinion that James Chesebro had died of a knife thrust not so long a time before.

Lombardo and his satellite looked intently for some moments at the wound, then turned away without a word and sat down.

"I am very sorry, Senor Chatfield," Lombardo said, looking up at our host and speaking in Spanish, "that this has happened in your house. I know that your hospitality is above reproach. You cannot help this sad thing, of course; it is very sad. Who is the gentleman?"

"Senor James Chesebro." Lombardo's eyebrows shot upward. "He of the mine back in the mountains?" he inquired.

"Yes." "That is bad. Can you tell me who killed him?"

"I cannot, Senor Lombardo."

"Senor Rogers here," said Sam Chatfield, laying his hand upon Rogers' arm, "is quite famous for solving the mystery of murder north of the border."

"Ah, so!" exclaimed Lombardo. "Welcome, my friend. Perhaps we have a mystery here. If so I shall lean upon you. But, I think it is easily explained, no?"

"I hope so, Senor Lombardo," Rogers replied in Spanish. "So far Senor Madison and I have found nothing of importance. It was not suicide, because there is no weapon. It was not murder for the purpose of robbery."

"And the weapon, Senor Rogers; you say you have not found it?"

"I've been unable to discover it anywhere in the room; it is, of course, a knife of some sort."

"Yes. Thank you, senor, you have saved me much work."

"Did the gentleman have any enemies, Senor Rogers, either here in Mazatlan or at home?" inquired Alvarez, the gendarme. The man had not spoken until now.

Rogers shook his head. "I know of none, senor."

"I think," Lombardo said, stirring to his feet, "it is time we talk with someone about this crime. Who made the discovery, Senor Chatfield?"

Sam Chatfield got to his feet, taking a step toward the door, as if to lead the way. "I think it was Maria. It was she who came to tell me of it."

"We shall talk to Maria, then," said Lombardo.

The kitchen was large; gloomy shadows filled all the vast region above two unfrosted electric light bulbs which hung down from the high rafters on long cords.

"Stop!" shouted Lombardo. "Do not run away, anyone."

Two or three dimly flying figures made good their escape, while some four or five less fortunate obeyed the command and remained behind, standing with fidgeting hands and shuffling feet in the presence of the law.

"Maria," called Lombardo, sitting down in a small chair whose creaking, polished seat long years before had been cut from the hide of a cow.

"Yes, sir," the woman who had brought word of Chesebro's death, as we sat looking on at the dances in the courtyard, came to a fluttering attention near the middle oven.

"Come here, senorita," directed the chief. Alvarez drew up a chair before us for the woman, who sat down timidly, her dark eyes fastened apprehensively upon her questioner.

"You made the discovery of the dead man, did you not, Maria?" inquired Lombardo.

"Yes, sir."

"Tell me about it."

"I," she began, timidly, "I go to the gentleman's room to inquire. Senor Jefe del Policia, if he desires food. I push open the door gently and speak to him. He does not answer. I open the door and go in, and still he does not reply to my question. I go all the way to the bed, and—senor—God help me!—he is dead."

"Did you see the man who killed him, Maria?" inquired Lombardo.

"Oh, no, sir; I do not. I do not know who killed him. I swear, senor, I do not know. Outside is the fiesta. I cannot hear. I cannot see. So I do not know."

"Come here, you," commanded Lombardo.

A man, dressed in white cotton trousers, a ragged shirt and carrying in his hand a battered straw sombrero, shuffled forward on guache soles which were little more than leather soles for his bare feet.

"Who are you?" demanded Lombardo.

"I am Pedro, sir," the man replied nervously.

"Who are you? What do you do?"

"I am Pedro, the pulque man, sir."

"Pulque man," grunted Lombardo. "Why are you here?"

"I bring the pulque for the fiesta, sir."

"Yes, of course. But what do you know about the death of the gentleman in the big room?"

"Nothing, sir. I do not know there is a gentleman murdered."

(TO BE CONTINUED)

Fashion Is in Mood for Swank Accessories and Handsome Furs

By CHERIE NICHOLAS

THIS is a season when you are supposed to dress up your basic costume with dramatic accessories and stunning fur pieces. If you have been saving a choice bit of fur, thinking that sometime it might be used to trim a suit or fashion a hat, now's the time to hand it over to your furrier or your milliner. Tell her to make you up something fetching in the way of handbag, hat, scarf or muff to wear with your suit or coat, your one-piece dress or your loveliest evening gown.

Don't throw away the tiniest swatch of fur, for even the most insignificant little piece can be fashioned into a cunning bow to wear on the lapel of your cloth coat, or to pin on the pocket of your tweed jacket. If you are clever you can make your own little fur novelties out of tidbits of seal, Persian lamb, mink or gray lamb.

There's lots doing this winter among designers who vie with each other as to who can turn out the most strikingly original ideas in hat and muff or hat and bag sets, and special emphasis is being placed upon the importance of stole-like neckpieces.

Best dressed women regard a stole of choice fur as being a necessary luxury this season, be it of the simple type to wear with one's smart tailcoat, or the more elaborate sort for evening wear. Of the latter sort is the exquisite white fox fur which imparts drama to the lovely white gown centered in the illustration. That fashion is in a mood for swank accessories is seen in the hair ornament made of strands of white satin glass beads. Following the Chinese influence, it is balanced at each side, as if in salute to our ally.

With a gray suit, milady to the left in the picture wears a black scarf fox turban and a stole that converts into a muff. It may be worn as a scarf with the ends forming a muff, or it can be carried as a muff with long stole ends. This scarf-muff novelty, so practical and so wearable, is typical of the clever things being done with fur.

Braid-Trimmed Hats

Newest of the new winter fells bring tidings of braid-trimmed hats. Perfect for wear with tailored clothes is a hat of gray felt as shown above. It is very outstanding because of the fact that it is trimmed with black braid, which is big news. The vogue for braid trims is becoming increasingly interesting, since designers are making lavish use of braiding this year on everything from dresses and coats to handbags and hats. The high peaked crown of the other model shown reflects Russian influence.

The suit itself is a two-piece of gray wool soft as rabbit's fur. An especially important style message is conveyed in the black silk braid that trims the pocket and front of the five-button high-closing jacket. Chapters could be written in regard to the lavish use of braid trimming, as it appears this season on dresses, hats, bags and coats. Even the cuffs of gloves are braided. You can buy neat little cuff-and-collar sets that are all-over braided, which are nice to have in reserve when you need a touch to make an old dress look new.

Ensemble sets of black velvet which are quite the rage this season team "this and that" together in such fascinating "sets" as the huge black velvet bag, hat and gauntlet glove combination pictured in the group. The hat has a lace brim piped in velvet. The bag is enormous, as most bags are this year.

You can do a lot with a little when it comes to even a few inches of black velvet. For instance, you can make a little velvet patch pocket, and in jet beads trace your initial thereon. Display this as a breast pocket on your simple black daytime dress. It is well to have a big velvet bow in your accessory collection, for these bows are worn like a corsage, sometimes with a glittering brooch or clip.

Perfect for dinner and dancing is the new short evening gowns, with the accessory set shown in the inset. The fact that it is in black and white is significant, for again a sudden flair for black and white springs up in fashion circles. The hat is of white fox fur, trimmed with black wings. A black and white fox muff complements the hat.

Released by Western Newspaper Union.

Lapel Pins Are Made Of Colored Leather

Birds and animals are being copied in miniature done in gay leathers for the newest lapel pins. Birds of paradise are in gold kid trimmed with scallops of green and red and finished off with a single real feather. A flamingo spreads long pink tail feathers, its plumage made of fragments of kid. The parrot is the sauciest specimen of all, done in green leather with yellow and red contrasts. This new leather jewelry also includes animals, such as a big white leather circus horse, a toy elephant and so on. School-girls like to wear these on their jackets or at the neckline of their smart long sweaters.

Collar and Cuffs Now Get Designers' Attention

Not long since it was pockets that were featured as the center of attraction in coat dress and blouse styling. But if you will take sharp note as you saunter through fashion displays you will observe that it is collar and cuffs upon which designers are now focusing their creative genius. It will be interesting to keep tab on this movement. A dress, for instance, will be sans trimming except for glittering sequin collar and cuffs. New too, are the braided collar and cuff sets.

Lace-Trimmed Calots

Both small and brimmed velvet hats are enchantingly trimmed with lace that tunes beautifully to gala occasion. These black velvet fantasies are most alluring and the tiny calot and bonnet types with their mantilla like lace drapes or halo veils of sheerest Chantilly are most alluring.

Cheery Pinafore for A Lucky Little Girl

WHAT a lucky girl to own this pinafore! It took very little of Mother's time to do this simple pattern and this easy stitching. There are motifs for two pinafores . . . or use them on nursery linens or some tot's clothes or bibs.

Pattern 7638 contains a transfer pattern of a motif 6 by 10 inches and six motifs averaging 3 by 4 inches; complete directions for pinafore.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

FRANKFORT

Ada Lambrecht

The November meeting of the Frankfort Woman's Club was held in the school auditorium in connection with the Red Cross, Wednesday afternoon. The regular program was dispensed with and at the business session it was decided to contribute \$3.00 toward the yarn fund for local servicemen's sweaters. The contribution will be increased if necessary. Christmas gifts to Frankfort boys in service will be mailed soon. Those sent overseas were mailed last month. It was voted to send a Christmas to Henry Johansen, patient in the home for the aged and to send cards to the other patients there. The next meeting will be in the home of Mrs. Henry Breidert Dec. 16, at 6 p. m. A pot luck dinner and Christmas gift exchange will be held.

The Bloom Twp. High School PTA will meet in the school, the evening of Nov. 30. Parents of Bloom students residing in Frankfort and Lincoln Estates are urged to join the organization and may do so by attending this meeting or by calling Mrs. Arthur Lambrecht, Frankfort chairman.

The Frankfort Royal Neighbors will sponsor card parties in the home of the members on the afternoon and evening of Nov. 30. High scores are to be telephoned to Mrs. Walter Pfaff or Mrs. Bertha Nieland, chairmen.

Miss Esther Bettenhausen will entertain members of her club in her home next Tuesday evening.

The 17th wedding anniversary of Mr. and Mrs. Frank Heisner and the 43rd wedding anniversary of the latter's parents, Mr. and Mrs. Chas. Radlows of Oshkosh, Wis., was celebrated Thursday in the Heisner home at the Thanksgiving dinner. Other guests were: Mr. and Mrs. Lawrence Radlows and daughter Arlene, the elder Radlows' grandson Dale, all of Oshkosh; and Mr. and Mrs. Oscar Sell of Neenah.

SCHOOL NOTES

Frankfort school subscribed 100 percent for the Lincoln Manuscript fund by collecting \$4.75.

The Junior Red Cross members made 50 Thanksgiving tray mats for soldiers confined in hospitals. The salvage drive for waste paper last month in co-operation with the Victory Club netted more than \$40.

Money raised by the annual school fair will be used to purchase a midget piano for use in the gym. Classes will be resumed Monday Nov. 29, following the Thanksgiving vacation.

Mrs. Maynard Hayhurst will be hostess to the Busy Homemakers Home Bureau in her home Wednesday Dec. 1, at its Christmas party. A pot luck dinner and gift exchange is scheduled.

The Jolly Nine Club enjoyed a theatre party in Chicago Wednesday afternoon.

The Royal Neighbors will meet in the Village Hall Thursday evening Dec. 2. A pot luck supper at 6:30 p. m. and after the business session, a Gift exchange will be held and games will provide entertainment. Serving on the committee will be Mrs. Walter Pfaff, Mrs. R. Nieland, Mrs. Edw. Warning and Miss Annette Kohlhausen. Group card parties sponsored by the Camp will be held Tuesday evening, Nov. 30.

Miss Lucille Topp and Miss Marie Batson of Kankakee left Saturday to spend a week visiting Cpl. Wm. Batson, at the Florence Air Base, Florence, S. C.

Miss Shirley Pfeiffer, was the guest of honor at a miscellaneous shower given by Mrs. Fred Heisner Friday evening. Crash bunco was played at five tables with awards for scores going to Mrs. Joe Scott, Mrs. Wm. Tibbitts and Mrs. Lloyd Bettenhausen. The travelling prize went to Mrs. Fred Kohlhausen. Duplicate honors were presented to Miss Pfeiffer. Blue and white corsages were given as favors. A two course luncheon was served at quartette tables. Out of town guests were Mrs. Irvin Jensen, Mrs. Ernest Pfeiffer, Mrs. Roy Pfeiffer, Mrs. Tibbitts, Mrs. H. Storm, Misses Jean and Marjorie Jensen all of New Lenox and Mrs. L. Bettenhausen of Peotone. Miss Pfeiffer will become the bride of Harlow Jensen Saturday evening, Dec. 4 in St. Peter's Ev. and Ref. church at Frankfort.

After spending last Sunday and Monday visiting relatives in Chicago, Pvt. Raymond Smith returned to his station in Washington, Wednesday. He enjoyed a two weeks furlough here with his parents.

Mrs. J. M. Clark has gone to Marselle, Ill., to spend the winter near the homes of her sons. Her address is 471 N. Bluff St., The apartment she and Mr. Clark had planned to occupy before he was fatally stricken at their home here last Tuesday.

Mrs. Elmer Morrison underwent a major operation Saturday in Silver Cross hospital, Joliet.

Dinner guests in the Bauman home Saturday were: Mr. and Mrs. Otis Whitcomb of Matteson, and Mr. and Mrs. Leo Whitcomb and daughter Margha Ann of Marion, Indiana.

Mr. and Mrs. Fred Heisner and Mr. and Mrs. Henry Heisner had Thanksgiving dinner with Mr. and Mrs. Floyd Lankenau at Ann Arbor, Mich. Other guests were Mr. and Mrs. Burton Breidert and son of Salina, Mich.

Mrs. Ervin Schellhase who has been a patient in Silver Cross hospital for two weeks underwent surgery there Friday.

A pot luck dinner was served in St. Peter's church Sunday following the morning service for members of the official board and their families. The dinner was arranged for the convenience of the members to meet with the pastor for a special business in preference to an evening affair.

Mr. and Mrs. Wilbur Walsh and daughter Nancy of New Lenox celebrated their 10th wedding anniversary November 22. Last Sunday evening they were guests at a dinner served in their honor in the home of Mr. and Mrs. Walter Bettenhausen.

Lincoln Estates

By Lois Madgen

Mr. Clyde Carter from Kewanee is visiting his sister Mrs. McLean for a few days.

The Young People of the Calvary Baptist church spent Friday evening at the home of Mrs. Fern Buck in Tinley Park. They made plans for their part in the Christmas program which is to be held in the Refreshments were served after the business meeting.

Dr. and Mrs. Geo. Pederson and Mr. and Mrs. Ted Gault and daughter all from Chicago spent Thursday evening at the Madsens.

Pvt. John LeRoy who is formerly of Lincoln Estates and his wife are spending his furlough with his parents who are now living in Chicago Heights.

Robt. Sluiter has returned from the hospital after being under observation for a week.

Dorothy Fedak is now employed with the Illinois Central Railroad. Pvt. John LeRoy and wife visited the LaBue family Wednesday night.

Mildred Russell celebrated her 15th birthday Wednesday Nov. 17. Mr. and Mrs. Young and daughter of Chicago Heights spent Friday evening with the LaBue family.

Mr. Frank Madsen received a phone call Friday telling him that his sister who lives in St. Charles was seriously ill. He went there immediately.

Mr. and Mrs. Jean Becker of Barrington visited Mrs. A. F. Williams Wednesday afternoon.

Mrs. Wm. Anderson spent Saturday evening in Chicago with Mr. and Mrs. Chas. Anderson.

Mrs. L. Pollard returned Friday after spending a week in Silver Cross hospital.

Mr. and Mrs. Geo. Nelson visited the Madsen family Sunday afternoon.

Mr. and Mrs. Carl Sauer spent the weekend with the Sluiter family.

Camp Berkeley, Texas

Dear Mr. Semmler:
Just a couple of lines to let you know my change of address as I sure like to get the News-Bulletin and find out what is going on back home and in the other nearby towns.

I have just come off of maneuvers and am proud to say I got a copy of the News-Bulletin every week. Your friend, Pfc. Wilfred Niedringhaus, 36382412, Co. B, 56th A.I.B., APO 262, Camp Berkeley, Texas.

Mr. and Mrs. Ernest Goering announces the engagement of their daughter Kate to Mr. Donn T. Sauter of Chicago.

Yeoman 3-c Walter Neidringhaus left for overseas Nov. 10 after a 23 day furlough which he spent at the home of his parents Mr. and Mrs. Clarence Neidringhaus.

Shirley and Alice Neidringhaus attended the launching of a ship Sunday. The launching took place

on the Calumet River.

Mr. and Mrs. Wollenhoup and son Billy, Mr. and Mrs. Jerry Koss and children Babs and Tim, all of Chicago were guests at the J. Fedak home Sunday.

The Rev. Father Otto Thiel was a dinner guest of Mr. and Mrs. John Fedak, Sunday. John Fedak Jr. celebrated his 15th birthday, Sunday, Nov. 14.

Mr. and Mrs. C. Sauer of Chicago spent Sunday at the P. Sluiter home.

Robt. Sluiter has entered St. James hospital for observation.

Mrs. Eliz. Carlson spent Sunday at the home of her parents.

Mr. and Mrs. Floyd Carlson celebrated their 2nd Anniversary, Monday, Nov. 1.

Mrs. W. Singer and Mr. and Mrs. Joseph Putz of Cicero, spent Sunday afternoon with Mr. and Mrs. E. J. Hermanek.

Mr. and Mrs. DeHaan and daughter Lynn visited with the Sluiter family, Sunday.

Seaman 3-c Geo. Eldersveld spent the weekend here with his wife.

A good representation of the membership and several visitors attended a very interesting meeting of the Orland Park PTA last Thursday evening in the school library.

Mrs. Roxy Brown presented an excellent and thorough review of the well known book "Strong City."

There was an interesting display of old books, one being a speller that was in use in 1854. The members were also given an opportunity to inspect the new books recently added to the school library.

Following the meeting a short period of recreational games was introduced by Mrs. Evelyn Frogner after which refreshments were served by the hostess committee of Mes dames Christina Rust, Geo. Gee Jr. Edw. Gee, Fred Yunker, Robt. Ebeling and Gustie Hallinan.

Several new members were added to the roster. The Room award was won by Miss Kleins room.

Miss Virginia Tabor of the Orland Community high school faculty, has accepted the appointment as Junior Red Cross chairman.

The latest reports from the worker's committee that is soliciting subscriptions for the Methodist Ministers Pension fund show that a little over two thirds of our quota of \$1200 has already been pledged. There is still time to bring this amount up to quota figures and anyone wishing to aid this worthy cause should get in touch with Archie Kay or Tom Cooper. The committee also reports that pledges for our local budget fund are coming in very satisfactorily and it is hoped to have a good working fund to carry on the work of the church for the coming year.

The Orland Fire Dept. was called out last Sunday to combat a severe grass fire which for a time appeared to be endangering several homes in the subdivision at 159th and Wolf Road.

In The Churches

ST. WILFRED'S CATHOLIC CHURCH

Sermon by pastor "Pitching the Tent Toward Sodom". We urge all our people to make this worship service a matter of careful thought and prayer and attend if at all possible

Church school 9:45 a.m. Percy L. Jochum, Gen. supt. Mrs. Noble Terrell, Youth Supt. Mrs. Arthur J. Brandau, Supt of Primary Dept.

All parents must become dear earnest about religious education of their children if we are to build a better world.

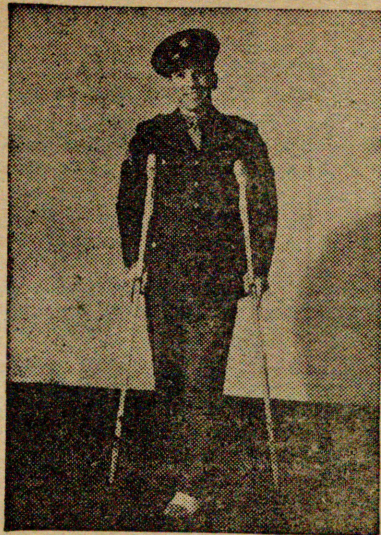

The Women's Society for Christian Service will hold their monthly meeting at the Recreation hall on Dec. 1 at 1:30 pm. They will also have their Christmas party Dec. 29. There are two different meetings.

The Men's Club have postponed their meeting until the 10th of December at the Recreation Hall 8 pm.

Youth Fellowship at the church parlor 7 pm. We had a very interesting meeting last Sunday night with Orland Park Fellowship as our guest. The Pastor Rev H. E. Rompel brought us a very fine message.

R. J. L. McKelvey, D. D. Pastor

"We Are Buying War Bonds—Are You?"

Part of Sgt. Edward Straube's left foot was shot away at Ferryville, near Bizerte, North Africa. At Halloran General Hospital, Staten Island, N. Y., they are building up his foot again. Sgt. Straube, from Perth Amboy, N. J., buys War Bonds regularly.

Sgt. Bernard Rello, 22, of New York, was wounded by snipers during the Sicilian campaign. His grandparents live in Naples, and he has a brother in the army. Both buy War Bonds regularly. Do you do as much?

Technician 5th Grade John A. Wisniewski, 25, of Door, Mich., lost his right eye, three fingers and suffered chest wounds from shrapnel in the fight to capture Tunis. He is now recovering at Halloran and is a regular War Bond purchaser.

Pvt. Bernard Heidemann's left leg will be two inches shorter when he is discharged from Halloran. He was wounded in Sicily last August. His home is Chicago. He has been in traction since Sept. He's buying bonds.

The nickname of Pvt. Milton Lieberman, 27, of Brooklyn, is "Clark Gable." He was wounded in Sicily last August and has been at Halloran since October. Every payday \$12.50 is taken out for War Bonds Lieberman is buying. How many do you buy?

NOTICE TO FILE CLAIMS

The undersigned, having been appointed Administrator of the Estate of Ida Schlockermann, deceased, late of the County of Will and State of Illinois, hereby gives notice that an inventory in said estate was not filed within ninety days of the time of her appointment, and that she will appear before the Probate Court of Will County, at the Court House, in Joliet, on the first Monday in January, A. D. 1944, which is the new claim date at which time all persons having further claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

Dated this 5th day of November, A. D. 1943.

Amelia Carter, Administrator as aforesaid.

Frank G. Brumund, Attorney.

MOKENA

MOKENA SCHOOL NEWS

Primary Room, Miss Dorothy Johnson, Teacher.

The Primary Room evolved a scheme for a visual record of progress in undertaking spelling lessons in Grades 2 and 3. Pupil-artists of the class drew a steamship, a sailboat, a rowboat, and a raft upon the foamy sea. Those who were fortunate enough to obtain an average of 100 were permitted to travel on the large steamer. The pupils with spelling averages between 90 and 99 journeyed on a large sailboat. Those who averaged 80-89 traveled with less speed upon a rowboat, pointing out that greater labor on their part was required to reach the goal. The pupils with 70-79 averages had to be satisfied with the raft and any pupils with averages less than 70 found themselves sadly floating above the bubbles on the water, above which was printed the word "sinking."

The chart was appreciated by all and aroused much enthusiasm.

Travelers on our steamboat this week were: Bob Bruggeman, Betty Colclasure, Mary Cooney, Jack Newton, Frederick Rauch; Pat Reid; Diana Wondrasek, Ronald Bruggeman, Florence Burgeson, Delores Cooper; Jean Cooper, Phyllis Gaddis, Helen Geuther; Dickie Gillette, Wayne Hentsch, Esther Holm Paul Kessler, Warren Nelson; Mary Ann Rinke, Helen Reuckert, Bruce Shoop and Rita Werner.

Intermediate Room, Mrs. Eleanor Ferguson, Teacher.

Mr. Maue was a visitor in the Intermediate Room on the afternoon of November 10. Flag stickers were received by over twenty pupils having five consecutive hundreds in spelling.

The Intermediate room is starting an Airplane Contest for Spelling. Pupils with a grade of 100 go up in a four motored bomber, those with grades below 100 travel in airplanes with less speed, and pupils with failing grades must land in parachutes on the ground.

The Physical Education class is learning to play volleyball. Every one enjoys it.

The pupils in grade 5 have been reading about the jungles. A jungle project, made by David Krapp, was displayed in the room.

Grades 5 and 6 are working on a Transportation project in geography.

Jr. High School, Mrs. Elizabeth Cappel, teacher.

We are glad to welcome to our room a new pupil, Fred Lofredde from Chicago.

The Literary Club of the Junior High School Room met Friday evening. The meeting was called to order by the president Jack Hurley. The Secretary, Ronald Steen, read the minutes of the last meeting. New business was the election of officers to conduct the next meeting.

The program consisted of Book Reports given by the following people: Flying for Uncle Sam given by Daniel Gode; A Recruit for Abe Lincoln given by Phyllis Howe; Thad and the G-Man given by Pierre Hughes, Green Treasures given by Georgia Bennett; Adventures of the G-Men given by Jack Bueschel, Mount and Ride given by Robert Bonnem; Dynamo Farm given by Ramon Gunhouse, and Lassie Comes Home given by Carol Benson.

The Girl Scouts had a pot luck supper Nov. 5 and spent the evening working on tray covers for the men in the Army and Navy hospitals. Their next project is the making of bed jackets. This work is in connection with the Junior Red Cross.

High School: Mr. Gerald Dunn, Principal.

The following pupils in the High school have not been absent during the first quarter of the school year: Irvin Holm, Frank Sizer, Doris Spiess, Norma Jean Hostert, Lois Hutson, Chas. Holm, Donald Homering and Carol Stermer.

A Brownie meeting was held after school in the Intermediate room. The Brownies worked on spatter painting covers for the scrap books, which are to be given to soldiers and sailors in hospitals.

Lt. Wessels arrived Tuesday in Mokena to spend Thanksgiving with his wife and her mother Mrs. Rose Moriarty.

Thanksgiving dinner guests in the Albert Cappel home were: Mrs. Emil Cappel, Marvin Cappel, Mr. and Mrs. Wesley Cappel and daughter and Mrs. Mildred McMillan.

Chas. Egerton was ill in his home last week.

Mrs. Marie Shevlin and daughter Florence of Chicago spent Thanksgiving with her son Henry Shevlin and family.

Mrs. Fred Klatt is spending this week with her daughter, Mrs. Andrew Cappel. Guests in their home Thanksgiving were: Mr. and Mrs. Fred Klatt and family of Joliet and Mr. and Mrs. Herbert Bettenhausen and family of Tinley Park.

A daughter who has been named Sheila Mae was born in St. Bernard hospital in Chicago last Tuesday to Mr. and Mrs. Harold Cappel.

At the bunco party sponsored by St. Mary's Catholic Church last Thursday, the turkey was awarded to Miss Ruth Shevlin of Mokena; the duck went to a party in Ohio and the chicken to Indiana.

Mr. and Mrs. Wm. Semmler, Adeline and Ada and Mr. Ray Westlund of Orland Park were present at a family Thanksgiving dinner in the home of Mr. and Mrs. Robert Oesterich in Joliet.

Village of Mokena Milk Ordinance

An ordinance defining "milk" and certain "milk products", "milk products", "milk products", etc., prohibiting the sale of adulterated and misbranded milk and milk products, requiring permits for the sale of milk and milk products, regulating the inspection of dairy farms, dairies, and milk plants, the examination, grading, labeling, placarding, pasteurization, regarding, distribution, and sale of milk and milk products, providing for the publishing of milk grades, the construction of future dairies and milk plants, the enforcement of this ordinance, and the fixing of penalties.

Be it ordained by the Board of Trustees of the Village of Mokena as follows:

SECTION 1. Definitions.—The following definitions shall apply in the interpretation and the enforcement of this ordinance.

A. Milk.—Milk is hereby defined to be the lacteal secretion obtained by the complete milking of one or more healthy cows, excluding that obtained within 15 days before and 5 days after calving, or such milk as may be necessary to render the milk practically colostrum free; which contains not less than 8 1/2 percent of milk solids not fat, and not less than 3 1/4 percent of fat.

B. Milk fat or butter fat.—Milk fat or butter fat is the fat of milk.

C. Cream and sour milk.—Cream is a portion of milk which contains not less than 18 percent of fat. Cream is cream the acidity of which is more than 0.20 percent, expressed as lactic acid.

D. Skimmed milk.—Skimmed milk is milk from which a sufficient portion of milk fat has been removed to reduce its milk-fat percentage to less than 3 1/4 percent.

E. Milk or skimmed milk beverage.—All beverages made from a skimmed milk beverage is a food compound or a confection consisting of milk or skimmed milk, as the case may be, to which has been added a syrup or flavor, consisting of wholesome ingredients.

F. Buttermilk.—Buttermilk is a product resulting from the churning of milk or cream, or from the curdling or treatment by a lactic acid or other culture of milk, skimmed milk, reconstituted skimmed milk, evaporated or condensed milk or skimmed milk, or skimmed milk, containing not less than 8 1/2 percent of milk solids not fat.

G. Vitamin D Milk.—Vitamin D milk is milk vitamin D content of which has been increased by a method and in an amount approved by the health officer.

H. Reconstituted, or recombined milk and cream.—Recombined or combined milk is a product resulting from the recombining of milk constituents with water, and which complies with the standards for milk fat and solids not fat as defined herein. Reconstituted or recombined cream is a product resulting from the combination of dried cream, butter, or butter fat with cream, milk, skimmed milk, or water.

I. Goat Milk.—Goat milk is the lacteal secretion, free from colostrum, obtained by the complete milking of healthy goats, and shall comply with all the requirements of this ordinance. The word "cows" shall be interpreted to include goats.

J. Homogenized Milk.—Homogenized milk is milk which has been treated in such manner as to insure break-up of the fat globules to such an extent that after 24 hours storage no visible cream separation occurs in the milk and the fat percentage of the top 100 cc. of milk in a quart bottle, or of proportionate volumes in containers of other sizes, does not differ by more than 1 percent from the fat percentage of the remaining milk as determined after thorough mixing.

K. Milk Products.—Milk products shall be taken to mean and include cream, sour cream, homogenized milk, goat milk, buttermilk, recombined milk, skimmed milk, reconstituted or recombined milk and cream, milk beverages, skimmed milk beverages, and any other product made by the addition of any substance to milk or any of these products and used for similar purposes as defined herein as a milk product by the health officer.

L. Pasteurization.—The terms "pasteurization", "pasteurized", and "similar terms" shall be taken to refer to the process of heating every particle of milk or milk products to at least 143 F. and holding at such temperature for at least 30 minutes, or to at least 160 F., and holding at such temperature for at least 15 minutes in approved and properly operated equipment: Provided, That nothing contained in this definition shall be construed as disbaring any other process which has been demonstrated to be equally effective approved by the State Dept., of Public Health.

M. Adulterated milk and milk products.—Any milk or milk product which contains any poisonous substance, or which is defined in this ordinance does not conform with its definition, or which carries a grade label unless such grade label has been awarded by the health officer and not revoked, shall be deemed adulterated and misbranded.

N. Milk producer.—A milk producer is any person who owns or controls one or more cows, part or all of the milk or milk products from which is sold or offered for sale.

O. Milk distributor.—A milk distributor is any person who offers for sale or sells to another any milk or milk products for human consumption as such.

P. Dairy or dairy farm.—A dairy or dairy farm is any place or premises where one or more cows are kept, a part or all of the milk or milk products from which is sold or offered for sale.

Q. Milk plant.—A milk plant is any place or premises or establishment where milk or milk products are collected, handled, processed, stored, bottled, pasteurized, or prepared for distribution.

R. Health Officer.—For the purpose of this ordinance the term "health officer" shall mean the health officer of the County of Will or his authorized representative.

S. Average.—Average bacterial plate count, direct microscopic count, reduction time, and cooling temperature.—Average bacterial plate count and average direct microscopic count shall be taken to mean the logarithmic average, and average reduction time and average cooling temperature shall be taken to mean the arithmetic average, of the respective results of the last four consecutive samples taken upon separate days, irrespective of the date of grading or regrading.

T. Grading period.—The grading period shall be such period of time as the health officer may designate with which grades shall be determined for all milk and milk products, provided that the grading period shall in no case exceed 6 months.

U. Person.—The word "person" as used in this ordinance shall mean "person, firm, corporation, or association."

V. And/or.—Where the terms "and" or "or" are used, they shall apply where possible, otherwise "or" shall apply.

SECTION 2. The sale of adulterated, misbranded, or ungraded milk or milk products within the Village of Mokena is prohibited. No person shall within the Village of Mokena produce, sell, offer, or have in possession with intent to sell, any milk or milk product which is adulterated, misbranded, or ungraded. It shall be unlawful for any person, elsewhere than in a private home, to have in

possession any adulterated, misbranded or ungraded milk or milk product. SECTION 3. a. Permits.—It shall be unlawful for any person to bring into, send into or receive into the Village of Mokena, its police jurisdiction, for sale, or to sell, or offer for sale, therein, or to have in storage where milk or milk products are sold or served, any milk or milk product defined in this ordinance, who does not possess a permit from the health officer.

Only a person who complies with the requirements of this ordinance shall be entitled to receive and retain such a permit. Such a permit may be suspended by the health officer, or revoked after an opportunity for a hearing by the health officer, upon the violation by the holder of any of the terms of this ordinance.

b. Licenses.—(The following wording is optional) No person, firm, or corporation shall engage in the sale, delivery, or distribution of milk or milk products within the Village of Mokena without first obtaining a license therefor as herein provided.

c. License Fees.—(The following wording is optional) Persons desiring to engage in the sale, delivery, or distribution of milk or milk products within the Village of Mokena shall make application to the Village of Mokena, which shall have the power to issue a license upon the presentation of a permit to sell milk and milk products as issued by the health officer, and other satisfactory proof that the applicant is entitled to such license.

The annual fees for the various licenses for engaging in the business of the sale, delivery, or distribution of milk and milk products in the Village of Mokena shall be as follows:

1. For each milk plant the sum of \$5.00.
2. For each vehicle transporting milk or milk products for delivery in the Village of Mokena the sum of \$3.00.
3. For each dairy, depot, or place where milk is sold, or milk products the sum of \$2.00.

Any person who shall engage in the wholesale or retail milk business shall have each vehicle from which milk is sold or milk products are sold, vended marked with the name, post office address, and permit number of the vendor on both sides of the vehicle and shall have attached to the vehicle and shall have attached to the vehicle a milk license plate or sticker issued by the Village Clerk.

SECTION 4. Labeling and placarding.—All bottles, cans, packages, and other milk product defined in this ordinance shall be plainly labeled or marked with (1) the definitions in contents as given in this ordinance; (2) the grade of the milk; (3) the word "pasteurized" only if the contents have been pasteurized; (4) the word "raw" if the contents are raw; (5) the name of the producer if the contents are raw, and the name of the pasteurizer, which the contents are pasteurized; and (6) the name of the pasteurizer, which the contents are pasteurized; and (7) in the case of vitamin D milk, the designation "Vitamin D Milk." The label or mark shall be in letters of a size, color and color approved by the health officer and shall contain no marks or words which are misleading.

Every restaurant, cafe, soda fountain, or other establishment serving milk or milk products shall display at all times, in a place designated by the health officer, a notice approved by the health officer, stating the health officer's grade of milk and/or milk products served.

SECTION 5. Inspection of dairy farms and milk plants for the purpose of grading or regrading.—At the time of each grading or regrading, the health officer shall inspect all dairy farms, and all milk plants, intended for the sale of milk or milk products within the Village of Mokena, and if the health officer discovers the violation of any item of sanitation, he shall make a second inspection after a lapse of time as he deems necessary, but not before the expiration of 3 days; and the second inspection shall be used in determining the grade of milk and/or milk products. Any violation of the same item of this ordinance on two consecutive inspections shall call for immediate regrading.

One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside of the dairy farm or milk plant buildings, and said inspection report shall not be excepted or removed by any person. Another copy of the inspection report shall be filed with the records of the health department.

SECTION 6. The examination of milk and milk products.—During the grading period at least four samples of milk and cream from each dairy farm and each milk plant shall be taken on separate days, and the results of the examination of the milk products may be taken and examined by the health officer as often as he deems necessary. Samples of milk and milk products, from stores, cafes, soda fountains, restaurants, and other places where milk or milk products are sold shall be examined as often as the health officer may require. Bacterial plate counts and direct microscopic counts shall be made in conformity with the latest standard methods recommended by the American Public Health Association. Examinations may include such other chemical and physical determinations as the health officer may deem necessary for the detection of adulteration, these examinations to be made in accordance with the latest standard methods of the American Public Health Association and the Association of Official Agricultural Chemists. Samples may be taken by the health officer at any time prior to the final delivery of the milk or milk products to the stores, cafes, restaurants, soda fountains and other similar places, upon his request, with the names of all distributors from whom the milk and milk products were obtained. Bio-assays of the vitamin D content of vitamin D milk shall be made when required by the health officer in a laboratory approved by him for such examinations.

Whenever the average bacterial count, the average reduction time, or the average cooling temperature falls beyond the limit for the grade, then held, the health officer shall send a written notice thereof to the person concerned and shall take an additional sample, but not before the lapse of 2 days, in determining the new average.

SECTION 7. Violation of the grade requirement by the new average or by any subsequent average during the remainder of the current grading period shall call for immediate regrading or suspension of the permit, unless the last individual result is within the grade limit.

SECTION 8. The grading of milk and milk products.—At least once every six months the health officer shall announce the grades of all milk and milk products delivered by all producers or distributors and ultimately consumed within the Village of Mokena or its police jurisdiction. Said grades shall be based upon the following standards, the grading of milk products being identical with the grading of milk except that the bacterial standards shall be doubled in the case of cream, and omitted in the case of sour cream and buttermilk. Vitamin D milk shall be only of grade A pasteurized quality.

Grade A raw milk.—Grade A raw milk is raw milk the average bacterial plate count of which as determined under section 1 (S) and 6 of this ordinance does not exceed 200,000 per cubic centimeter, or the average direct microscopic count of which does not exceed 200,000 per cubic centimeter if clumps are counted, or the average reduction time of which is less than 6 hours; and which is produced by a dairy conforming with all of the following items of sanitation.

ITEM 1. Cows, tuberculosis and other diseases.—Except as provided by the health officer, all cows and herds and additions thereof shall be made before any milk therefrom is sold, and at least once every 12 months thereafter, by a licensed veterinarian approved by the State Live stock sanitary authority. Said tests shall be made and reactors disposed of in accordance with the requirements approved by the United States Department of Agriculture, Bureau of Animal Industry, for accredited herds. A certificate signed by the health officer and filed with the health officer shall be evidence of the above test. Provided, That in the case of a dairy where the modified accredited area system is applied to the dairy herds the modified accredited area system approved by the United States Bureau of Animal Industry shall be accepted in lieu of annual testing.

Cows which show an extensive or entire induration of one or more quarters of the udder upon physical examination, whether secreting abnormal milk or not, shall be permanently excluded from the milking herd. Cows giving bloody, stringy, or otherwise abnormal milk, but with only slight induration of the udder, shall be excluded from the herd until re-examination shows that the milk has become normal.

For other diseases such tests and examinations as the health officer may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

ITEM 2. Dairy barn, lighting.—A dairy or milking barn shall be required and in such sections thereof where cows are milked windows shall be provided and kept clean and arranged so as to insure the light properly distributed, and when necessary shall be provided with adequate supplementary artificial light.

ITEM 3. Dairy barn, air space and ventilation.—Straw, hay, and other material where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

ITEM 4. Dairy barn, floors.—The floors and gutters of such parts of all dairy barns in which cows are milked shall be constructed of concrete or other approved impervious and easily cleaned material, and shall be kept clean and in good repair. No horses, pigs, fowl, calves, etc., shall be permitted in parts of the barn used for milking.

ITEM 5. Dairy barn, walls and ceilings.—The walls and ceilings of all dairy barns shall be whitewashed once each year or painted once every 2 years, or oftener, if approved by the health officer. An approved manner and shall be kept clean and in good repair. In case there is a second story above that part of the barn in which cows are milked, the ceiling of the second story shall be separated therefrom by a dust-tight partition and door. No feed shall be stored in the milking portion of the barn.

ITEM 6. Dairy barn, cowyard.—All cowyards shall be graded and drained as well as practicable and kept clean. Swine shall not be permitted in the cowyard.

ITEM 7. Manure disposal.—All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies therein or the access of cows to piles thereof.

ITEM 8. Milk house or room, construction.—There shall be provided a milk house or milk room in which the cooling, handling and storing of milk and milk products and the washing, bactericidal treatment, and storing of milk containers and utensils shall be done. (a) The milk house or room shall be constructed of concrete or other impervious material, in good repair, and graded to provide proper drainage. (b) It shall have walls and ceilings of such construction as to insure easy cleaning, and shall be well painted or finished in an approved manner. (c) It shall be well lighted and ventilated. (d) It shall have all openings effectively screened and closed, doors, unless other effective means are provided to prevent the entrance of flies. (e) It shall be used for no other purposes than those specified above, and shall be approved by the health officer; shall not open directly into a stable or into any room used for domestic purposes; shall, unless the milk is to be pasteurized, be provided with adequate facilities for the heating of water for the cleaning of utensils; shall be equipped with two-compartment stationary wash basins.

ITEM 9. Milk house or room, cleanliness and flies.—The floors, walls, ceilings, and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used.

ITEM 10. Toilet.—Every dairy farm shall be provided with one or more sanitary toilet facilities conveniently located and properly constructed, operated, and maintained, so that the waste is inaccessible to flies and does not pollute the surface soil or contaminate any water supply.

ITEM 11. Water supply.—The water supply for the milk room and dairy barn shall be properly located, constructed, and operated, and shall be easily accessible, adequate, and of a safe sanitary quality.

ITEM 12. Utensils, construction.—All multi-use containers or other utensils used in the handling, storage, or transportation of milk or milk products must be made of smooth nonabsorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be covered with a smooth cloth shall not be used for straining milk. All milk pails shall be of a small-mouth design approved by the health officer. The manufacture, packing, pasteurization, and handling of single-service containers and container caps and cover shall be conducted in a sanitary manner.

ITEM 13. Utensils, cleaning.—All multi-use containers and equipment used in the handling, storage, or transportation of milk and milk products must be thoroughly cleaned after each usage.

ITEM 14. Utensils, bactericidal treatment.—All multi-use containers, equipment, and other utensils used in the handling, storage, or transportation of milk or milk products shall be subjected to an approved bactericidal process with steam, hot water, chlorine, or hot air.

ITEM 15. Utensils, storage.—All containers and other utensils used in the handling, storage, or transportation of milk or milk products shall be stored in a clean, dry, well-ventilated place, and shall be uncontaminated before being used.

ITEM 16. Utensils, handling.—After bactericidal treatment no container or other milk or milk product utensil shall be handled in such a manner as to render any part of any person or his clothing to come in contact with any surface with which milk or milk products come in contact.

ITEM 17. Milking, udders and teats, abnormal milk.—The udders and teats of all milking cows shall be clean and rinsed with a bactericidal solution at the time of milking. Abnormal milk shall be kept out of the milk supply and shall be so handled and disposed of as to preclude the infection of the cows and the contamination of milk utensils.

ITEM 18. Milking, flanks.—The flanks, bellies, and tails of all milking cows shall be free from visible dirt at the time of milking.

ITEM 19. Milking, hands.—Milking hands shall be clean, rinsed with a bactericidal solution, and dried with a clean towel immediately before milking and following any interruption in the milking operation. Wet-hand milking is prohibited. Conventional facilities shall be provided for the washing of milking hands.

ITEM 20. Clean clothing.—Milkers and milk handlers shall wear clean outer garments while milking or handling milk, milk products, containers, utensils, or equipment.

ITEM 21. Milk stools.—Milk stools shall be kept clean.

ITEM 22. Removal of milk.—Each pail of milk shall be removed immediately after milking and shall be stored in a clean room. No milk shall be strained or poured in the dairy barn.

ITEM 23. Cooling.—Milk to be delivered to a milk plant or receiving station for pasteurization or separation shall be delivered within two hours after completion of milking or cooled to 70°F., or less and maintained at that average temperature, as defined in Section 1 (S) until delivery.

ITEM 24. Miscellaneous.—All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to prevent their contents from the sun and from contamination. All vehicles used for the transportation of milk or milk products in their final delivery containers shall be constructed with permanent tops, sides and back, provided that openings of the size necessary to pass the delivery man or back for loading and unloading purposes, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such vehicles. All vehicles used in the distribution of milk or milk products shall have the name of the distributor prominently displayed. The immediate surroundings of the dairy shall be kept in a neat, clean condition.

Grade B raw milk.—Grade B raw milk is raw milk which violates the bacterial standard and/or the average direct microscopic count of grade A raw milk, but which conforms with all other requirements for grade A raw milk, and has an average bacterial plate count which exceeds 1,000,000 per cubic centimeter, or an average direct microscopic count not exceeding 1,000,000 per cubic centimeter if clumps are counted, or an average reduction time of not less than 3 1/2 hours, as determined under sections 1 (S) and 6.

Grade C raw milk.—Grade C raw milk is raw milk which violates all the requirements for grade B raw milk.

Grade A pasteurized milk.—Grade A pasteurized milk is grade A raw milk, with such exceptions as are indicated, which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation, and the average bacterial plate count of which at no time after pasteurization and until delivery exceeds 30,000 per cubic centimeter, as determined under sections 1 (S) and 6.

Grade B pasteurized milk.—Grade B pasteurized milk is grade B raw milk, with such exceptions as are indicated, which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation, and the average bacterial plate count of which at no time after pasteurization and until delivery exceeds 30,000 per cubic centimeter, as determined under sections 1 (S) and 6.

ITEM 25. Handling of a pasteurized milk supply.—The handling of a pasteurized milk supply shall include the inspection of receiving and collecting stations with respect to items 19 to 23, inclusive, and item 24, and the pasteurization of the milk.

ITEM 26. Floors.—The floors of all rooms in which milk or milk products are handled or stored, or in which their containers are washed shall be constructed of concrete or other equally impervious and easily cleaned material and shall be smooth, properly drained, provided with trapped drains, and kept clean.

ITEM 27. Walls and ceilings.—Walls and ceilings of rooms in which milk or milk products are handled or stored, or in which their containers are washed shall be smooth, properly painted, and kept clean. Walls and ceilings shall be light-colored surface and shall be kept clean.

ITEM 28. Doors and windows.—Unless other effective means are provided to prevent the entrance of flies, doors and windows shall be effectively screened and doors shall be self-closing.

ITEM 29. Lighting and ventilation.—All rooms shall be well lighted and ventilated.

ITEM 30. Miscellaneous protection from contamination.—The various milk-plant operations shall be so located and conducted as to prevent any contamination of the milk or of the cleaned equipment. All means necessary for the elimination of flies shall be used. There shall be separate rooms for (a) the pasteurizing, processing, cooling, and bottling operations, and (b) the washing and bactericidal treatment of containers and utensils.

Pasteurized milk or milk products shall not be permitted to come in contact with equipment with which raw milk or milk products have been in contact. Rooms in which milk, milk products, cleaned utensils, or containers are handled or stored shall not open directly into a stable or into any room used for other purposes than the processing of milk and milk products and the operations incident thereto, except as may be approved by the health officer.

ITEM 31. Toilet facilities.—Every milk plant shall be provided with toilet facilities meeting the requirements of the Will County Health Department and approved by the health officer.

Toilet rooms shall not open directly into any room in which milk, milk products, or equipment, or containers are handled or stored. The doors of all toilet rooms shall be kept in a clean condition, in good repair, and well ventilated. Privies or earth closets are permitted and used, they shall be separate from the building, and shall be of a sanitary type constructed and operated in conformity with the requirements of item 10, grade A raw milk.

ITEM 32. Water supply.—The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

ITEM 33. Hand-washing facilities.—Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved disinfectant towels. The use of a common towel is prohibited.

ITEM 34. Sanitary piping.—All piping used to conduct milk or milk products shall be of a sanitary type, shall be easily cleaned with a brush. Pasteurized milk and milk products shall be conducted from one piece of equipment to another only through sanitary piping.

ITEM 35. Construction and repair of containers and equipment.—All multi-use containers and equipment with which milk or milk products are handled shall be constructed in such manner as to be easily cleaned and shall be kept in good repair. The manufacture, packing, transportation, and handling of single-service containers and container caps and covers shall be conducted in a sanitary manner.

ITEM 36. Hand-washing facilities.—Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved disinfectant towels. The use of a common towel is prohibited.

ITEM 37. Sanitary piping.—All piping used to conduct milk or milk products shall be of a sanitary type, shall be easily cleaned with a brush. Pasteurized milk and milk products shall be conducted from one piece of equipment to another only through sanitary piping.

ITEM 38. Construction and repair of containers and equipment.—All multi-use containers and equipment with which milk or milk products are handled shall be constructed in such manner as to be easily cleaned and shall be kept in good repair. The manufacture, packing, transportation, and handling of single-service containers and container caps and covers shall be conducted in a sanitary manner.

sanitary manner.

ITEM 11p. Disposal of wastes.—All wastes shall be properly disposed of. Cleaning and bactericidal treatment of containers and equipment.—All milk and milk products containers and equipment, except single-service containers, shall be thoroughly cleaned and subjected to an approved bactericidal process after each cleaning and all equipment immediately before each usage.

When empty and before being returned to a producer by a milk plant each container shall be effectively cleaned and subjected to bactericidal treatment.

ITEM 13p. Storage of containers and equipment.—After bactericidal treatment all bottles, cans, and other multi-use milk or milk products containers and equipment shall be stored in such manner as to be protected from contamination.

ITEM 14p. Handling of containers and equipment.—Between bactericidal treatment an usage, and during usage, containers and equipment shall not be handled or operated in such manner as to permit contamination of milk.

ITEM 15p. Storage of caps, parchment paper, and single-service containers.—Milk-bottle caps or milk stock, parchment paper, or milk stock, and single-service containers shall be purchased and stored only in sanitary tubes and cartons, respectively, and shall be kept therein in a clean dry place.

ITEM 16p. Pasteurization.—Pasteurization shall be performed as described in section 1 (L) of this ordinance.

ITEM 17p. Cooling.—All milk and milk products received for pasteurization shall be immediately cooled in approved equipment to 50 F. or less and maintained at that temperature until pasteurized, unless they are to be pasteurized within 2 hours after receipt and fall shall be immediately cooled in approved equipment to an average temperature of 50 F. or less, as defined in section 1 (S), and maintained thereat until delivery.

ITEM 18p. Bottling.—Bottling of milk and milk products shall be done at the place of pasteurization in approved mechanical equipment. Overflow milk or milk products shall not be sold for human consumption.

ITEM 20p. Capping.—Capping of milk and milk products shall be done by approved mechanical equipment. Hand capping is prohibited. The cap or cover shall cover the pouring lip to at least its largest diameter.

ITEM 21p. Personnel, health.—The health officer shall examine and take a careful morbidity history of every person connected with a pasteurization plant, or about to be employed, whose work brings him in contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment. If such examination or history suggests that such person may be a carrier of typhoid or paratyphoid fever or any other communicable diseases likely to be transmitted through milk, he shall secure appropriate specimens for examination in a laboratory approved by him or by the State Department of Public Health, for such examinations, and if the results justify such person shall be barred from such employment.

Such persons shall furnish such information, submit to such physical examinations, and submit to such laboratory specimens as the health officer may require for the purpose of determining freedom from infection.

ITEM 22p. Personnel, cleanliness.—All persons coming in contact with milk, milk products, containers, or equipment shall wear clean outer garments and shall keep their hands clean at all times while thus engaged.

ITEM 23p. Miscellaneous.—All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect their contents from the sun and from contamination. All vehicles used for the transportation of milk or milk products in their final delivery containers shall be constructed with permanent tops, sides and back, provided that openings of the size necessary to pass the delivery man or back for loading and unloading purposes, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination.

ITEM 24p. Immediate surroundings of the milk plant.—The immediate surroundings of the milk plant shall be kept in a neat, clean condition.

Grade B pasteurized milk.—Grade B pasteurized milk is pasteurized milk which violates the bacterial standard and/or the provision of lycopodium of item 20p and/or the requirement that grade A raw milk be used, but which conforms with all other requirements for grade A pasteurized milk. It has been made from raw milk of not less than grade B quality, and has an average bacterial plate count after pasteurization and before delivery not exceeding 50,000 per cubic centimeter, as determined under sections 1 (S) and 6.

Grade C pasteurized milk.—Grade C pasteurized milk is pasteurized milk which violates any of the requirements for grade B pasteurized milk.

SECTION 8. Grades of milk and milk products which may be sold.—From and after 12 months from the date on which this ordinance takes effect no milk or milk products shall be sold to the final consumer or to restaurants, soda fountains, grocery stores, or similar establishments except Grade A pasteurized milk, or unless the health officer fails to qualify for one of the above grades the health officer is authorized to revoke his permit, or in the case of a temporary suspension, to suspend its sale during a temporary period not exceeding 30 days or in emergencies such longer period as he may deem necessary.

SECTION 9. Supplementary grading prescribed and regarding authorized.—If, at any time between the regular announcements of the grades of milk or milk products, a lower grade shall become justified, in accordance with sections 5, 6, and 7 of this ordinance, the health officer shall immediately lower the grade of such milk or milk products, and shall enforce proper labeling and placarding thereof.

Any producer or distributor of milk products the grade of which has been lowered by the health officer, and who is properly labeling his milk and milk products, may at any time make application for the regrading of his product.

Upon receipt of satisfactory application, in case the lowered grade is the result of an excessive average bacterial plate count, direct microscopic count, reduction time, or cooling temperature, the health officer shall take further samples of the applicant's output, at a rate of not more than two samples per week. The health officer shall regrade the milk or milk products upward whenever the average of the last four sample results indicates the necessary quality, but not before the lapse of two weeks from the date of degrading.

In case the lowered grade of the applicant's product is due to a violation of an item of the specific requirements prescribed in section 1, other than average bacterial plate count,

direct microscopic count, reduction time, or cooling temperature, the said application must be accompanied by a statement signed by the applicant to the effect that the violated item of the specifications has been conformed with. Within one week of receipt of such an application and statement the health officer shall make a reinspection of the applicant's establishment, and thereafter as many additional reinspections as he may deem necessary to assure himself that the applicant is again complying with the higher grade requirements, and, in case the findings justify, shall regrade the milk or milk products upward, but not before the lapse of 2 weeks from the date of degrading.

SECTION 10. Transferring or dipping milk; delivery containers; handling of more than one grade; delivery of milk at quarantined residences.—Except as permitted in this section, no milk producer or distributor shall transfer milk or milk products from one container to another, or from one vehicle or in any vehicle or store, or in any place except a bottling or milk room especially used for that purpose. The sale of dip milk is hereby prohibited.

All pasteurized milk and milk products shall be placed in their final delivery containers in the plant in which they are pasteurized, and all raw milk and milk products sold for consumption in the raw state shall be placed in their final delivery containers at the farm at which they are produced. Milk and milk products sold in the distributor's containers in quantities of less than one gallon shall be delivered in standard milk bottles or in single-service containers, immediately before delivery, incept in the original container from the distributor or from a bulk container equipped with an approved dispensing device. Provided, That this requirement shall not apply to cream constituted on the premises, which may be served from the original bottle or from a dispenser approved for such service.

It shall be unlawful for any hotel, soda fountain, restaurant, grocery, or similar establishment to sell or serve any milk or milk products which have not been maintained while in its possession at a temperature of 50°F. or less.

No milk or milk products shall be permitted to come in contact with equipment with which lower grade of milk or milk products has been in contact.

Bottled milk or milk products, if stored in water, shall be so stored, that the tops of the bottles will not be submerged.

It shall be the duty of all persons to whom milk or milk products are delivered to clean the such milk or milk products in which such milk or milk products are delivered before returning such containers. Apparatus, containers, equipment and storage, silos used in the transporting of milk products shall not be used for any other purpose without the permission of the health officer.

NEW LENOX

Dolores Anderson

Pvt. and Mrs. Gordon Osmus are the parents of a baby girl born Monday, Nov. 15 in the Kossuth hospital at Algon, Iowa.

Edw. Coulehan of Chicago spent a few days this past week at the home of Mrs. Mary Bently.

Mrs. Chas. Ellis has been ill in her home.

Edw. Berens, Jr. has been ill in his home.

Cpl. Harold Reiter arrived home last Wednesday to spend a 15 day furlough with his parents.

Seaman 2-c Harold Mattson returned Sunday, from Farragut, Idaho, and returned there Wednesday.

Mrs. Joseph Novak entertained at a party Wednesday afternoon honoring her daughter Judy who celebrated her 6th birthday. The occasion also honored the birthday of Judy's aunt Mrs. Howard Ayres. Refreshments were served and a favor presented to each guest. Gifts were presented to the honored guests. Guests were: Mrs. Harold Sayers and son Billy, Mrs. Edith Sayers and daughters, Barbara and Marilyn; Mrs. Jesse Watkins, Janet Lee Fitzer, Mrs. Jack Glade, Mrs. Josephine Sayers and David and Gene Novak.

Mrs. Roy Lentz of Chicago and Mr. and Mrs. Harold Sayers and son Billy were dinner guests Wednesday night of Mr. and Mrs. Joe Novak and family.

Mr. and Mrs. Walter F. Reinhard and daughter Petra have returned from Westby, Wis. where they attended the funeral of her father Mr. Olie Evensen.

Ronald Gillette has been ill at his home.

T-5 Robt. Paulson spent a 3 day leave with his parents. He left Thursday night for Sedalia Army Air Field, Warrensburg, Mo.

Mr. and Mrs. Maurice Fetters of Chicago spent the weekend with Mr. and Mrs. Roland Fitzer.

Mrs. Gail Qualls is visiting here with Mr. and Mrs. Harvey Johnson and other friends.

Mr. and Mrs. Sydney Batson and

Mr. and Mrs. Arthur Wirth were dinner guests Sunday of Mr. and Mrs. Ben Scherpe.

Mr. and Mrs. Gus Osmus spent the weekend with Mr. and Mrs. John Jensen in Joliet.

Miss Shirley Pfeifer was the honored guest at a miscellaneous show given by her aunt, Mrs. Fred Heisner at her home in Frankfort Friday night. Each guest was presented with a Rosebud corsage from the hostess as a favor.

Crash bunco was played and prizes went to Mrs. Joe Scott, Mrs. Will Tibbetts, Mrs. Lloyd Bettenhausen and Mrs. Fred Kohlhaugen. Duplicate prizes were presented to the bride-to-be.

A luncheon was served at quarter tables and decorations were in blue and white, chosen colors of the bride to be. Many lovely gifts were presented to the guest of honor.

Those attending were: Mrs. Lloyd Bettenhausen and Miss Gloria Benoit of Peotone; Mrs. Ed Fuss of Joliet; Mrs. Walter Pfaff; Mrs. Joe Scott, Mrs. Homer Smith, Mrs. Wm. Wishover, Mrs. Adam Heisner, Mrs. Eric Bizer, Mrs. Fred Kohlhaugen, Mrs. Henry Breidert, Mrs. Ed Warning and Miss Viola Lankenau of Frankfort; Mrs. Norman Krapf and Mrs. John Stauffenberg of Manhattan, Mrs. Will Tibbetts, Mrs. Irving Jensen, Misses Margery and Jean Jensen, Mrs. Harry Storm, Mrs. Ernest Pfeifer and Mrs. Roy Pfeifer of New Lenox.

On Friday night Mrs. Roy Pfeifer will entertain at a bathroom shower honoring Miss Pfeifer.

Thanksgiving Guest List: Mr. and Mrs. Robt. Gillette's NEW LENOX sontd.

guests were: Mr. and Mrs. Harley Gillette and family, of Mokena, and Mr. and Mrs. E. D. Gillette.

The Willard Sayers guests were: Miss Irene Haines of Chicago and Mr. and Mrs. L. F. Wilson.

In the Alfred Emiley home were Mr. and Mrs. Everett Pugh and family of Harvey, and Mr. and Mrs. Burton Gillette.

Mr. and Mrs. Harvey Johnson's guests were: Mr. and Mrs. John Sakola of Chicago.

Mr. and Mrs. E. F. Wilt, Chester Simms and son of Rockford and S-2-c Harold Mattson were guests in

the Bert Mattson home.

Mr. and Mrs. Stanley Ekedahl and family spent the day in Chicago with Mr. and Mrs. Blair Gilbert. The occasion also was in celebration of the birthday of Gordon Ekedahl.

Mr. and Mrs. Harvey Frick and family, and Mr. and Mrs. Wm. Collett and daughter were guests for the day of Mr. and Mrs. Robt. Stockley.

Mr. and Mrs. Geo. Bethel and family, Mr. and Mrs. Ed Bormet and family and Mr. and Mrs. Geo. Bethel spent the day in Monee with the Earl Ullrich family.

Mr. and Mrs. Edw. Berens and son and Mr. and Mrs. Larry Surges and son were guests of Mr. and Mrs. Albert Latz in Joliet.

Mr. and Mrs. Francis Miller and son Ronnie were dinner guests of Mr. and Mrs. Frank Miller and family.

Mr. and Mrs. Dewey Ruettiger and children were guests of Mr. and Mrs. Jake McGuire in Lockport.

Mr. and Mrs. Clarence Batson entertained in their home Tuesday night for their son, 2nd Lt. James D. Batson, who left Wednesday morning for San Diego, Cal. after spending a 15 day furlough here. Various games were played and refreshments were served.

Many gifts were presented to the honored guest. Present were: Mrs. Anna Parsons, Mr. and Mrs. Ernest Pfeifer, Miss Shirley Pfeifer, Harlowe Jensen, Mr. and Mrs. Fred Brooks, James Brooks, Mr. and Mrs. Arthur Wirth, Mr. and Mrs. Will Drake, Mr. and Mrs. Glen Batson and children; Mr. and Mrs. Tom Cooper, Ardis and Lois Batson of New Lenox. Also Mr. and Mrs. Rodney Baker, Mr. and Mrs. James Cameron and Mr. and Mrs. Gerald Zimmerman of Joliet.

Frank W. Schroeder returned November 1 from Haines, Alaska where he has been for almost a year, employed with Foley Bros. and Rohl-Connelly Co. of the Alaska Highway.

Mr. and Mrs. Henry Miller and Mrs. Henry Engel and son Kent, left last week Thursday morning for Atlanta, Ga., where they will spend several days with Sgt. Henry Engel who is stationed at Fort

McPherson. The Millers will return this weekend but Mrs. Engel and Kent will remain there as Sgt. Engel expects to get a furlough around the first of the year, when they will return home.

ORLAND PARK

IN MEMORIAM

HELENHOUSE, CAROLINE—In memory of our wife and mother who passed away one year ago, November 28, 1942.

We miss you from our home, dear We miss you from your place A shadow o'er our life is cast We miss the sunshine of your face We miss your kind and willing hand

Your fond and earnest care Our home is dark without you— We miss you everywhere.

John Helenhouse and family.

The new schedule for the Orland Park Public Library, effective Dec. 1, 1943, is as follows: Monday and Thursday, 2 to 5 pm.

The following ladies of the Christ Lutheran church attended a luncheon given by the Ladies Aid of the Trinity Lutheran church of Bachelors Grove on Friday, Nov. 19:

Mrs. A. Lach, R. Liliwitz, C. Keuch, Jno. Schmaedeke; H. Nicolai, Robt. Horn, Geo. Steinhagen; H. Hallinan, P. Oelke and Ed Duher.

Dr. and Mrs. W. Lindquist entertained a group of friends last Thursday night in honor of their 19th wedding anniversary. The following were present: Mr. and Mrs. Harry Anderson; Mr. and Mrs. Sigmond Smith, Mr. and Mrs. Harry Pihl; Mr. and Mrs. Geo. Gee Jr., Miss Virginia Gee, Mrs. David, Agate and Mr. Ralph Agate.

The Pinochle Club enjoyed an outing in Chicago on Nov. 16 with dinner at the Blackhawk Restaurant and a show. "Kiss and Tell" at the Harris Theatre. Those attending were: Mabel Ekberg, Billie Klotz, Opal Oelke, Bertha Nicolai, Annie Uthe, Emma Burkhardt, Gustie Hallinan, Della Steinhagen.

Laurel Camp 1796 RNA met in the Legion hall Thursday, Nov. 18.

Mrs. Carrie Kreiger, Dist. Supervisor instructed candidates Virginia Rocky and Irene Borgo in the secret work. The Neighbors plan to have a Christmas party at the next regular meeting, Dec. 23. Election of officers will be held.

A few games of bunco were played during the social period and refreshments were served by the hostess committee: Mrs. Hilda Cox, Mrs. Sylvia Stigers and Mrs. Nellie Wheeler.

Friday and Saturday, November 26 and 27, the Orland Park Boy Scouts will make a house to house canvass to collect old newspapers, cardboard and wrapping paper.

IN MEMORIAM

HELENHOUSE, CAROLINE—In fond and loving memory of a wonderful friend who left us so suddenly, November 28, 1942.

There's many a lonely heartache, There's many a silent tear, God only knows how I miss you, As it ends this first sad year.

ROSE

Orland Service Mens News Mrs. H. Kruspe, Chr.

MOKENA

A ten pound daughter was born to Mr. and Mrs. Harry Cooper in Silver Cross hospital Tuesday evening.

Fremont, to us Buddy, Warning who enlisted in the navy left last Tuesday for Farragut, Idaho.

Mrs. Philip Hacker Jr., received word last week from her parents in Joliet that the War Dept. had notified them that their son Arthur Weiss had been wounded in battle in Italy.

Mrs. Gilbert Hurley has received no further word from her son Mauney Hutson, when a month ago he was reported seriously ill with malaria in a hospital in this country.

Thanksgiving Day dinner guests in the Barney Hostert home were: Mr. Harrison Haley of Kempton, Ill., Mr. and Mrs. Elmer Cooper, Mr. and Mrs. Arthur Lauffer, Mr. and Mrs. Chas. Lauffer, Mr. and Mrs. Russel Lauffer and family, Mr. and Mrs. Harold Cooper and family, Mr. and Mrs. Hugo Neithammer and daughter and Mr. and Mrs. Vernon Haag and family.

Mr. and Mrs. Paul Kessler entertained guests from Iowa and Pontiac for Thanksgiving Day dinner.

Pfc. and Mrs. Lester Nieman are the proud parents of a daughter, named Judy, who was born to them in James Walker hospital in Wilmington, N. C., November 11th. Mrs. Nieman is the former June Anderson of Chicago Heights. They reside in Holly Ridge, N. C., as Pfc. Niemann is stationed at Camp Davis.

Miss Elise Mathieu of Chicago spent the weekend with Miss Lydia Baudry.

Mrs. Louis Lauffer underwent surgery in St. Francis hospital, Blue Island this week.

A daughter was born in St. Francis hospital Blue Island Monday to Mr. and Mrs. Harold Homerding.

Miss Ada Semmler and Mr. Ray Westlund attended the Ice Follies in Chicago last Saturday evening.

The following members of the Evening Pinochle Club attended the National Barn dance of WLS in Chicago Saturday evening: Mr. and Mrs. Harold Spiess, Mr. and Mrs. Alvie Spiess, Mr. and Mrs. Willard Mantie, Mr. and Mrs. Everett Cooper, Mr. and Mrs. Byron Nelson, Mr. and Mrs. Lester Schiek, Mr.

and Mrs. Alfred Heiman and Mr. and Mrs. Geo. Rinke.

Mr. and Mrs. Geo. Schroeder of Frankfort were dinner guests Thanksgiving of Mr. and Mrs. H. Spiess.

Mr. and Mrs. Wm. Semmler, Adeline Semmler, Mrs. Emilie Campbell of Seattle, Wash., and Mr. and Mrs. Hugh Deadmore of Joliet attended the WLS National Barn Dance in Chicago last Saturday night.

The Misses Lydia Baudry, Elise Mathieu, Adeline Semmler and Adelaide Lauffer enjoyed horseback riding Sunday at Klein's in Orland.

WOMEN'S SERVICE CLUB NEWS

By Mrs. Leslie Clark

Hans Mueller, A.S. who has finished his boot training at Farragut, Idaho, is enjoying a short leave at home.

Pfc. Earl Schoeneck is also enjoying a furlough at home from his duties at Camp Cook, Cal.

S. Sgt. Edward Hentsch, Pfc. Christian Hentsch and Pvt. John Hentsch are all enjoying a furlough at home. Edw. is stationed at Pine Camp, N. Y., Chris at Los Angeles, and John at Augusta, Ga.

A. S. Edward Lauffer who is stationed at Rock Island, Ill., spent the week end at home.

Letters From Our Boys

Somewhere in England Here we go again. Another Christmas, another box from your very fine organization, thank you.

By way of a complete change we're enjoying a beautiful day this Sunday. For the past several weeks a sort of monsoon has been the type of weather we've had to endure. As you will notice in my address, we've moved once more. We had been billeted in a hotel in a fairly large city. Frankly it was wonderful. Now we're living in the country and enjoying a rest.

My very sincere best wishes to all of you for a joyous Holiday season. Sincerely, Ellsworth McGovney.

Camp Hill, Farragut, Idaho. We certainly are busy trying to learn the ropes, short cuts, etc. Hope this letter finds you, good as possible.

I am sitting at a table in Ship's Service with my bunk mate. I think I told you that at Ship's Service, we have games, ice cream, coco cola, music and a sort of a store where we can buy soap, razor blades, shoe polish, postal cards and most everything we need.

Last night we saw some news reels, sport shorts and the picture, 'Claudia'. One of the commanding officers invited us to the show. This was a break for us as without this invitation we would have spent the time in our barracks.

Today we had our swimming exams. tried for second class, but made third. For second class, one must jump off a board about 15 ft. high and then swim 25 yards free style, 25 yards breast stroke, 25 yds. on the back, and then must stay afloat in deep water for 10 minutes. I never could swim on my back but I managed to swim about 15 yards on my back before I turned over, thus qualifying as 3rd class.

I have volunteered for basketball, swimming, and rifle, that is trying for the squad. After our 6 or 7 weeks training, or 12 or whatever the 'boots' take, take these tests over again to see how much better they can do. Some of us will then try for 1st class swimming. A 1st class swimmer must swim 200 yds., free style, 25 yds., under water with two breaks for air, must jump in the pool with trousers on, take them off and tie them, inflate them with air—by the human lung—and use them as a buoy. Last but not least, a fellow gets a strong hold around you. Then you must break this hold and tow him 25 yards in such a fashion that he cannot get a hold on you. Our company has two 1st class swimmers.

Last Monday who should I bump into at Ship's Service but Jack Walsh from Manhattan. You can't imagine how surprised I was to see him. He is in the same camp, but in a different company.

Sincerely, George Lauffer

PILE SUFFERERS!

I suffered for years with pile and fistula. I will tell you how I was healed. Just send stamped envelope, Herman Bergman, P. O. Box 56, Chicago 90, Ill.

These Men Fill Mess Kits and Market Baskets

On the American food front, as on the industrial front, the accent is on production.

Farmers are being called upon by the American soldier and the American family to attain, despite wartime labor conditions, grain, meat, vegetable, butter and egg, dairy quotas believed impossible a few years ago.

Like their fellow producers for Victory on the production line, farmers have adapted electricity to a multitude of chores once done slower and by hand.

Helping raise food for freedom is highly important among the wartime jobs electricity is doing.

Electric Power Speeds Food Production

The vast grain and dairy farms of Illinois are vital sources of the nation's food supply.

Elevating, grinding and processing feed for livestock is a farm job electricity does well.

Milking, traditional farm chore, is done today by electricity; other dairy tasks, too, are done with power.

Electricity has gone to war — don't waste it!

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

Sportlight

by GRANTLAND RICE

WE ARE now moving into a rather strange, weird and complicated sporting world.

Many of the stronger college football teams of October are only remnants in November. Star after star, singly and in groups, is heading now for Parris Island, a big marine base, or some other service center.

You could recruit a football team at Parris Island that would be unbeatable, given just a little time.

At the same time the draft is moving in on big league baseball.

Consider the Yankees alone.

Spud Chandler, their star pitcher, is on his way out, unless he is 4-F, which Spud isn't. Under the rules, Spud is 1-A.

Charlie ("King Kong") Keller, their home run hitter, is waiting his 1-A test. Keller is no 4-F. Nor a 2-A.

Joe Gordon, their feature second baseman, has had over 100 hours in the air—and he can't miss.

If Chandler, Keller and Gordon are not fit for service work we must have the super-army of all time. They happen to be three of the finest all-around athletes I've ever known on one ball club.

I happen to know that Bill Dickey, their veteran catcher, a first class flier, too old for any combat flying at 38, would like to get an instructor's flying job.

This same condition must apply to other teams. If the war remains tough or gets tougher, the call on sport will be even louder than it has been so far. And the call has been heavy.

Shifting Tides

In many cases football stars, playing at one college in October, are playing with rivals now.

Tides are shifting back and forth faster than the human eye can follow.

Is a team to be rated on its September and October form before the blast arrived, or is it to be rated on its November showing down the stretch?

In the past few weeks hundreds of good football players have been called away from teams scattered all over the national terrain.

There are some good teams left. In any event the balance of power is more evenly distributed.

Army and Navy are able to complete their season without any deficits in material.

We are not yet certain whether there will be further shifts from time to time, extending through December.

This, of course, would throw the various bowl situations into something approaching a tangle, if not a turmoil.

But there are still many rougher things happening in this war.

All-Star Selections

Those attempting to pick All-Star or All-American combinations also find themselves wading into the quicksands.

How many games would a star have to play before he could be properly named?

It is certainly not the player's fault that he can't finish his football work.

To help complicate matters, the waning season has been loaded with stars—such backs as Daley, Bertelli, Davis, Hamburg, Steuber, Kane, Odell, Graham, McCordle, Podesta, Dark, Miller, Hirsch, Prokop, Field and others, from Duke, North Carolina, Purdue, Ohio State, Dartmouth, Washington, etc.

There will be no lack of fine material from which to make selections, but some of these who might belong have only played in one or two big games.

At least all this will help to keep the debaters busy when "the ways are heavy with mire and rut."

The Old Grad had been a trifle dazed all season. Events have had him trying to face three or four directions in the same split second.

For example, we have Minnesota rooters pulling hard for Daley, who helped Michigan wreck Minnesota.

Under such conditions you can't very well blame the Old Grad from feeling just a bit curious in the cupola.

For all of these expected and justified handicaps it has been an interesting season and there are still some good games on the docket before the season ends.

About Bob Odell

Miller, Bertelli, Davis and Daley, among others, are all great backs.

Bertelli and Miller have been the most valuable pair of the year.

But Bob Odell, younger brother of the Yale coach, is my pick.

Odell, on the offensive side, is a fine, fast runner and a fine pass receiver.

But in addition, he is the best, or one of the best, blocking backs in the country and one of the hardest, surer tacklers—one of the best defensive men I've seen.

Speaking Sports

by Bob McNamee

Released by Western Newspaper Union.

EVEN while Coach Frank Leahy of Notre Dame was somberly forecasting that the Irish-Northwestern tilt could "go either way," 91 of the nation's top grid experts were casting 91 first-place ballots for Notre Dame in the weekly poll to determine the country's best football team.

And that, by the way, was the first time any football team ever received unanimous backing.

Notre Dame's football status was summed up very clearly by Lieut. Comdr. Edgar ("Rip") Miller, Navy line coach, who said that the 1943 lineup is the best of all Notre Dame teams . . . "probably the greatest in collegiate or professional history."

Miller, as may be remembered, was one of the Seven Mules who cleared the way for the Four Horse-

COACH FRANK LEAHY

men in 1924. So his words carry weight.

"We took a fine team to Cleveland," Miller remarked recently, "and Notre Dame beat us although we had a fine line and a good set of backs. The team I saw that day was the greatest in the school's history. I believe it could have beaten any college or professional team put together."

Topping Them All

"It has weight, speed, precision and has mastered the fundamentals of pass defense, downfield blocking, ball handling, tackling—everything. It tops them all."

A great deal more will be heard of Coach Frank Leahy in years to come. It is our opinion that the future will have him remembered along with Knute Rockne as a great Notre Dame institution.

Leahy views each game with gloomy forebodings. His pre-game outlook is dark and melancholy. When things are beginning to look too bright for his team he begins remembering what Holy Cross did to Boston College last year. He remembers, too, that bleak day in 1935 when a thrice-beaten Northwestern came through to whip an undefeated Notre Dame team which was on its way to a national championship.

Leahy doesn't have to remind himself not to grow too optimistic. His sad thoughts are for the benefit of others who are overly cheerful.

Just as we think Leahy is the coach of the year, so we believe Angelo Bertelli is the player of the year. Though he didn't have the opportunity to finish out the season, Bertelli proved himself to be one of the most brilliant players in Notre Dame history.

In our opinion, Notre Dame, with its superb line, its greater backfield and its dazzling speed, stood out as the best college team we've ever seen.

The Possibilities

Bill Alexander, Georgia Tech coach, whose team played both Notre Dame and Navy, declared that the Irish could beat any team he had seen this season 50 to 0 if Notre Dame kept the pressure on.

Veteran football writers of the Midwest have expressed the belief that Notre Dame, with Bertelli in action, could beat the Bears and Redskins. Unquestionably the South Bend school is very well equipped with the elements of the T-formation demands at its best. But to beat the Bears would be asking a great deal from any college team. We wouldn't know about that.

Another thing—Johnny Lujack, the young man who replaced Bertelli, is more than a fair ball player. As an 18-year-old, even Bertelli was probably no more promising. There isn't much that Bertelli did that Lujack can't do. He can pass, run and tackle. In the Army game he answered the question of how he would react in the clutch. The answer was favorable.

SPORTS SHORTS

Professional football teams, playing away from home, receive a flat guarantee of \$5,000 or 40 per cent of net gate receipts.

The Cardinals were not the first club to make more errors than runs in the World Series. Connie Mack's Athletics made nine errors against McGraw's Giants in 1905, and scored only three runs in five games.

A New York statistician discloses that Whirlaway earned \$4.17 a yard in the 60 races he ran while piling up \$561.161.

Farm Topics

Adjusting Carburetor, Plugs, Saves Gasoline

Tractor Engines Should Run at Top Efficiency

With the gasoline situation becoming increasingly serious due to demands for gas for combat uses, farmers are being asked by the War Food Administration to cut their use of tractor fuel to a minimum.

While this request may seem extreme to farmers who have had their tractors stranded now and then by dried-up fuel tanks, W. C. Krueger, extension agricultural engineer at Rutgers university, points out that many tractors could be operated on 15 to 25 per cent less fuel through correct carburetor adjustment, lubrication, and proper setting of spark plugs and magneto.

He emphasizes that when it takes 100 to 180 gallons of fuel to plow a 40-acre field, 40 to 80 gallons to disc that field, 60 to 80 to haul a grain drill over it and 30 to 50 gallons to harrow it, a 25 per cent reduction in fuel becomes important.

Krueger offers the following suggestions for improving tractor efficiency:

1. It is a common error to believe that the leaner the mixture the less the fuel used. Too lean a mixture wastes fuel, causes over-heating, invites valve trouble. Best fuel economy results from setting carburetor at a compromise between too lean a mixture for idling and a slightly rich mixture representing maximum power adjustment. This setting can only be determined by trial under load.

2. Magneto timing is often responsible for over-heating and uneconomical operation. Since the method of setting varies with the tractor, follow the instruction book closely.

3. Set spark plug and magneto point gaps to recommended clearance occasionally. Put in new plugs when electrodes become worn.

4. Check valve tappets two or three times a season. Improper clearance ruins more valves than all other causes put together.

5. Never shut off a tractor immediately after running at full load. Valve warping is often caused by not letting the engine idle a short time before stopping so that the valves may cool gradually.

6. Operate the tractor at full load as much of the time as possible. It costs nearly as much to operate a tractor at half load as it does at full load. Maximum draw-bar efficiency occurs when the load is heavy enough to cause wheel slippage in field operations approximately 10 per cent.

BLACK SHEEP—There's one in every 2,000 head, say ranchers. This is the dark kid in a huge flock of Canadian sheep in the province of Alberta.

Corrugated Siding Is Made Of Felt Composition

A wartime substitute for corrugated sheet steel is a newly developed composite material that may be used in practically all construction where steel was formerly employed. This siding, which is corrugated like steel sheets, is made of two sheets of heavy felt, each saturated with a resino-bituminous compound, and laminated together with a high melting point adhesive. Its light weight is an advantage for farm buildings. Under tests conducted by the Celotex corporation, manufacturers, this product has proved satisfactory in withstanding heat, cold and moisture. The corrugations do not flatten out under effects of weathering.

A non-critical, emergency material, this corrugated siding is available in any quantity now, and can be used for building or remodeling.

Wasps Defeat Moths

Oriental fruit moths, a serious scourge to Michigan peaches, are being combatted effectively by a species of small wasp, called Macroctonus. These wasps are being released in the orchards at the rate of 50,000 a year.

The Michigan State college and the department of agriculture collaborated to find this insect enemy of the moths, and to breed it in large numbers. The fruit moths are a recent pest, having come in about 10 years ago.

Groceryman Was Just Standing True to Form

The village groceryman—who was also an air-raid warden of long standing—was very proud of the fact that his photograph had been published on the first page of the local newspaper.

While he was showing it to one of his customers, a rather formidable old lady, he detected a certain lack of enthusiasm on her part, and said apologetically: "Of course, it's not a very good photo. I'm out of focus."

"Yes," the old lady replied with a grim smile, "you're always out of something. You were out of string beans Tuesday and out of flour Friday!"

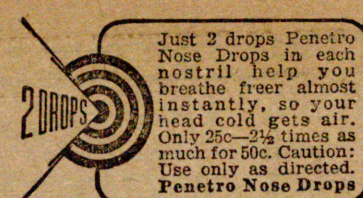

When armored knights met, it was customary for each knight to raise the visor of his helmet as a means of identification. This gesture has come down through all armies in the form of the salute. Traditional, too, is the Army man's preference for Camel cigarettes. With men in the Army, Navy, Marines, and Coast Guard, actual sales records in their service stores show that Camel is the favorite. It's one of the favorite gifts with service men. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are.—Adv.

CAMEL

Whales and Subs

Aircraft of the Civil Air patrol guarding our coastal waters are required to report the sighting of whales as well as submarines so that surface vessels in the vicinity may be notified. In several cases under poor visibility whales have been mistaken for U-boats and torpedoed.

NEEDED CARS NEED WEED CHAINS

• Weed Tire Chains are equipment for jeeps, half-tracks, trucks and other military vehicles.

• Sometimes people forget to repair old tire chains or to get new ones before they're needed. Then there's trouble.

NEEDED CARS NEED WEED CHAINS

DON'T START FIRES IN YOUR TIRES!

• Tires won't actually burst into flames when you spin them in snowdrifts or on icy roads. But you "burn 'em up" just the same. And tire chains will be hard to get this winter. So we suggest that you act at once to have your old chains reconditioned, and, if necessary, to secure new WEED TIRE CHAINS.

Essential civilian cars and trucks have first call on WEED CHAINS which are available after the needs of the armed forces have been supplied. . . . For the best buy in Tire Chains, ask for WEED AMERICAN BAR-REINFORCED. In these chains, every contact link is reinforced with a bridge of steel which assures much longer mileage.

SNAPPY FACTS ABOUT RUBBER

It was not until almost 300 years after Columbus that first commercial use was made of rubber. Native rubber articles—play balls, bowls, bottles, hats, capes and shoes—were brought to Spain and Portugal from various parts of Central and Northern South America years before the commercial merits of rubber were realized.

A rapidly growing army of more than 500 rubber-growing specialists from the U. S. is now in the Amazon rubber district expediting the collection of crude rubber and conquering the leaf disease that has taken severe toll of the jungle trees.

CALLING ALL TRAPPERS!**Over \$7,500⁰⁰ in Cash Awards!**

Get in on your share of the money that America's rich fur crop offers! Yes, there's fur aplenty around this section—and the strong demand points to high prices. Insist that your pelts bring TOP market prices! Follow the example of thousands of wise trappers—and benefit by Sears-Roebuck's direct fur marketing method!

It pays two ways to ship your furs to Sears-Roebuck. First, you get higher prices... FULL cash value for every pelt. Second, there are hundreds of chances to share in extra-cash awards for careful pelt handling in Sears 15th National Fur Show! 942 cash awards in all, totaling \$7,500.00.

Share in these extra fur dollars! Every pelt you ship to Sears-Roebuck during the Fur Show period is automatically entered, so don't delay. As soon as your furs are ready, ship them to Sears, Roebuck and Co., Raw Fur Marketing Service, Chicago.

**Holds 100 Lbs. of Coal**

It's the only heater of its kind in the world! Patented principles of construction produce steady, even heat... save work... save fuel. Burns any kind of coal... lump, nut or slack... also wood. Magazine semi-automatically feeds fuel as needed. Holds fire several days in mild weather without refueling.

Makes coke out of bituminous coal... then burns coke without smoke or soot. NO CLINKERS. Low in cost... exceedingly economical to operate.
